TO OUR TRADE AND CUSTOMERS

It is needless to go into detail and tell you what a disastrous season seed growers have passed through, as you are well aware of the extreme conditions which have made many varieties of Vegetable, Flower and Grass Seed a partial to a total failure. We are as well prepared to take care of your wants this season as we have been in the past; being fortunate in having our seed crops in localities that were favored with good weather and growing conditions.

Our prices have remained the same except in cases of exceptional shortages. However we wish to impress upon you the necessity of placing your orders early, while the stocks are unbroken, in order to supply your necessary requirements.

The steady increase of your patronage has been gratifying and has proven that the Best is none too good. With our increased facilities for testing and handling, we are in a better position to furnish you with the usual Stewart's High Grade Seed, which means success to you.

Do not fail to include in your order a few Dahlia, Gladiolus, Hardy Phlox, and many other splendid blooming Bulbs, Hardy Perennials and Hardy Shrubbery, to which we wish to call your special attention, as we are growers of the above stocks and know their true merit.

Thanking you all for past favors and trusting that we may have the pleasure of fulfilling your wants for a Prosperous Season.

STEWART'S SEED STORE

Flower and Vegetable Seeds by Mail

POSTPAID

NOVELTIES NOT INCLUDED IN THIS OFFER

3 Packets, 10 Cents          17 Packets, 50 Cents
8 Packets, 25 Cents            35 Packets, $1.00

One packet Peas, Beans or Corn count as two packets.
If bulk seeds are ordered by mail, add 8 cents per quart, or 8 cents per pound for postage.

TERMS: Cash with order. Remittance may be made at our risk by draft, money order, cash by express or registered letter, or clean postage stamps. Express money orders are always safe, and in case of loss quick adjustment can be made.
SEED NOVELTIES AND SPECIALTIES FOR 1912

Novelties are usually the most interesting to customers, no matter how many favorites they may have among the many standard varieties. It is our aim to offer in this department nothing but varieties of real merit and value, and such as are highly endorsed by leading specialists, farmers and growers throughout the country; hence customers are seldom disappointed in any novelty we offer. One of the uses to which our Trial Grounds, near the city, are put, is the thorough testing of all new things as soon as offered.

COSMOS--LADY LENNOX

This gigantic Cosmos is the forerunner of an entirely new type of Cosmos. It is of extraordinary size and beauty, the flowers measuring from four to five inches in diameter. Color a delightful shell-pink, lighting up beautifully at night. Pkt. 10c.

DELPHINIUM--BELLADONNA HYBRIDS

The value of the original type of Delphinium Belladonna is well known and appreciated. Its freedom of growth, lovely sky-blue flowers, long and continuous blooming qualities have placed it in the foremost rank of choice hardy plants. Our new strain of this lovely, hardy Larkspur contains not only the sky-blue of the parent type, but all shades from the palest to the darkest blue. The various intervening shades of sapphire, turquoise, indigo, etc., are rich and beautiful beyond description. The plants are dwarf in growth, and unlike the old perennial Larkspur, require no staking. They branch freely from the crown and bloom without intermission from early spring until late autumn, with increasing vigor to plants each succeeding season. The blossoms are much larger than the older variety, with much better arrangement on the spike. The foliage is deeply dentate, giving a most graceful and fern-like appearance to the plant and offering a beautiful foil to the gracefully poised spikes of bloom. Comparatively speaking, there are few blue flowers in nature, and none can excel the exquisite shades found in the various good Delphiniums; and now we have produced a practically ever-blooming strain, further increasing their value to the garden. Pkt. 25c.

CHINESE KUDZU VINE

"JACK-AND-THE-BEAN-STALK VINE" (PUERRARIA THUMBERGIANA)

If you wish a vine that will grow everywhere plant the Chinese Kudzu. It will flourish where nothing else will grow, and will last for many years. The large bold leaves of the brightest green, afford a dense shade. Its greatest feature is its wonderfully strong growth which makes it invaluable for covering arbors, fences, porches, dead or old trees, etc. The Kudzu Vine is a native of China, where it is grown not only for the beauty of the plant, but also for the edible value of its roots. The vine is hardy, grows fifty feet if permitted, and is well filled with dense foliage to the ground. Pkt. 10c.

ASTER--SMITH'S PEERLESS, 2-1-2 FEET

This strain, a selection of the Giant Branching, is without reservation the finest Aster for cut flowers. The style and substance of the flowers and formation of the plant outclasses all other Asters. The stems are long and wiry, the flowers of great depth and densely petaled and even full blown flower never exhibited the yellow disk.

White ....................... Pkt. 25c  Pink ....................... Pkt. 25c

ASTER--GIANT BRANCHING COMET, PURE WHITE, 20 INCHES

It is extremely free-flowering, producing from 100 to 120 flowers on a plant on long stalks, which fact alone makes it extremely valuable for florists work. The plant produces quite three times as many flowers as either the Comet or Branching variety. The form of the flower is absolutely faultless, remaining full centered without any sign of yellow eye. Pkt. 10c.
SEED NOVELTIES AND SPECIALTIES FOR 1912

HOWARD STAR PETUNIAS

From the center starts the points of a five-rayed star, which broadens half way up, narrowing to a point at the margin of the flower. The plants are free growers, branching freely and attaining an average height of 18 inches, by 24 inches in diameter. They are remarkably prolific bloomers, single plants often having fifty fully expanded flowers at a time. Pkt. 10c.

Centaurea Cyanus, Double Blue Cornflower—(2½ feet)—Same shade as the Blue Emperor. Plant is more vigorous and the flowers semi-double and have a remarkable lasting quality when cut. The plants were in bloom from early summer until frost in our trial grounds last season. Pkt. 10c.

Centaurea Cyanus, Double White—Glistening white. semi-double. Pkt. 10c.

BURBANK’S DAHLIA SEED

EVEN IF SOWN AS LATE AS MAY 20th DAHLIA SEEDLINGS WILL BLOOM THE FIRST YEAR—This seed is of Luther Burbank’s own saving, “will produce a greater proportion of large, clear, bright

NEW POPPY--SANTA ROSA

This new strain combines all the delicate beauty in color of the original Shirley and Shirley types and with these the whole flower in all its petals is beautifully crimped as illustrated.

Few garden flowers excel the Poppy in popular favor. Its freedom of growth, beauty and lovely showiness. Pkt. 10c.

DWARF POPPY

Shirley—(Snow White)—The flowers are of the greatest beauty and if a portion of them, as sometimes happens have a slight rose tinge towards the tip of the petals, it only adds to their attractiveness. This novelty is of great merit and will become a favorite having regard to the very simple culture needed and the wealth of bloom which the annual Poppies yield so continuously during the summer months. Pkt. 10c.

POPPY “MARION”

The one great drawback with annual Poppies, delightful as they are in their brilliant flowers, is the short duration of their flowers. This has been overcome with “Marion” which is apt to regain the favorite place the annual Poppy used to occupy in our gardens. The growth of this plant is much stronger and more vigorous in comparison to the old type. The foliage is of a rich green, stiff, of almost leathery consistency, while the flowers of a soft heliotrope color, are marvelously fringed and frilled, rendering them most valuable for bouquets. Cut, they keep in water from eight to ten days. Pkt. 10c.

Empress of China—(2 feet)—A beautiful single Poppy, white, with a narrow scarlet band around the edges. Pkt. 10c.

King Edward—(2½ feet)—A new single Poppy, producing flowers of a deep scarlet, shaded crimson, with a large black blotch at the base of each petal. Pkt. 15c.
SEED NOVELTIES AND SPECIALTIES FOR 1912

RADISH

STEWART'S WHITE WONDER—THE BEST LONG WHITE RADISH

Entirely distinct, long, slender, pure white. Very early, the earliest and finest long white. It is ready for use fully as early as the Long Scarlet Short Top, with less foliage, rendering it more desirable for forcing. In the open ground the roots continue brittle, crisp and mild until they are fully as long as those of the Long Cardinal. Superior to the finest red ones. Roots pure snowy white, four inches in length and half an inch in diameter; they retain their crispness and fresh, mild flavor until fully six inches long and an inch in diameter. Lb. 70c, ¼ lb. 20c, oz. 10c, pkt. 5c.

PERPETUAL CRIMSON GLOBE

This variety has given splendid satisfaction to all who have tried it. They are of uniform good quality, crisp and brittle, and they keep longer in a fit condition for the table than any variety we know of, hence their name Perpetual Crimson Globe. Can be sown any time of the year and will always produce good radishes fit for market early and keep in perfect shape for marketing about four weeks, or longer for home use. Pkt. 5c, oz. 10c, ¼ lb. 20c.

EARLY SWEET CORN

STEWART'S HONEY DEW—BEST EARLY SWEET CORN IN THE WORLD

A genuine Sweet Corn. Extra Early and larger than any other early variety. It is the most valuable early variety ever introduced and not only combines all the merits of the early varieties, but it is really superior to them all in size, quality and yield. It can be planted fully as early as the Adams, for the young plants withstand slight frosts, while the other varieties are tender, and the seed will not rot if planted before the soil becomes warm. The stalks grow about five feet high and are very vigorous, generally bearing two well developed ears to the stalk, large for an early Corn. Pkt. 5c, pt. 15c, qt. 25c.

KENTUCKY WONDER WAX POLE BEAN

The quality of this new, golden yellow Pole Bean is the best of the Wax Pole Beans. The habits of the vine and pods are similar to those of the Old Kentucky Wonder Green Pod variety. However, the quality is superior in every way. It is a very prolific sort, begins to bear when scarcely higher than the average bush bean and keeps on producing until killed by frost. Pods are so fleshy that they are frequently greater in thickness than in width, are entirely stringless, and when cooked are of a delicious rich flavor. In our trials we liked this best of all the Wax Pole Beans. Pkt. 10c, pt. 20c (by mail 28c), qt. 35c (by mail 50c) by express ½ pk. $1.10, pk. $2.00.

NEW TOMATO EARLY DETROIT

This is a variety maturing medium early in season, having the desirable features of bearing uniform, large, handsome, smooth fruits through a long season, yielding in the aggregate even more marketable Tomatoes than the standard and popular Beauty, which variety it so closely resembles. The fruits are almost globe shaped, firm and ship as well as any variety we know. Both amateur and the market gardener will be interested in this sort. It ripens early, bears a large crop, yields a long time, its fruits are large and smooth and quality excellent. Pkt. 10c, oz. 40c, 2 ozs. 75c, ¼ lb. $1.25, lb. $4.00.
VEGETABLES

ASPARAGUS

ONE OUNCE WILL SOW FORTY FEET OF ROW

Culture—Sow seeds in spring, in drills about twelve inches apart. Thin out seedlings leaving only the strongest. At one or two years transplant to permanent beds. Pkt. Oz. Lb.

Colossal, the standard variety ........................... 105 .10 .50

Palmetto, a desirable bright green variety ................ .10 .50

Two-year-old roots, 25c per doz., $1.50 per 100

One-year-old roots, 15c per doz., $1.00 per 100

BEETS

ONE OUNCE WILL SOW FIFTY FEET OF ROW, FOUR TO SIX POUNDS TO THE ACRE

Culture—Sow as early as possible in the spring and every two weeks after for a succession up to the first week in July. The soil should be light and well manured. Sow in drills about fifteen inches apart and thin from four to six inches after they are well up.

Early Egyptian Turnip—Bulbs are half globular or flattened at the poles; skin smooth, leaves red and green, flesh quite dark. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 75c.

Extra Early Eclipse, 40 Days—The bulbs are perfect globes, blood colored, and develop with astonishing rapidity. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 75c.

Early Blood Red Turnip—It is the best turnip-shaped beet for family use, all things considered, and we recommend it to all gardeners. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 75c.

Detroit Blood Turnip—Oz. 10c, 1/4 lb. 35c, lb. $1.25.

Half Long Blood Red—Dark blood-red, skin smooth, habits much earlier in maturity than the old Long Blood, and only half its length. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 75c.

Swiss Chard Beet or Sea Kale—Much superior to the common Beet for greens and equal to spinach. Sown early in the spring, it makes rapid growth of leaves, and is fit for greens sooner than any other variety. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 75c.

MANGELS

Culture—Extensively grown in all parts of the country for feeding stock. Sow in April or May, in drills three feet apart, and thin to ten inches in the row. If your soil is deep and mellow, try the long varieties; if shallow the round kind will do better. No crop pays the farmer or stock raiser better than Mangels; one thousand bushels to the acre is an ordinary yield, while with good culture over two thousand bushels have been grown on this amount of ground. These make the cheapest of foods for all kinds of live stock—horses, cattle, sheep, pigs, chickens, etc. Easily grown and they help to keep the stock in good condition and free from disease. Use twelve pounds of seed to the acre.

Golden Tankard—A rapidly maturing root adapted to shallow lands, though doing well on every soil. Solid sugary flesh and golden. Lb. 35c, 3 lbs $1.00.

Mammoth Long Red—Grows to an immense size and has produced five tons to the acre. Lb. 35c, 3 lbs. $1.00.

SUGAR BEETS

FOR SUGAR MAKING AND CATTLE FOOD

Silesian Sugar—Lb. 35c, 3 lbs. $1.00.

Klein Wanzeleben—This variety is used by the sugar factories. Lb. 35c, 3 lbs. $1.00.

Special Prices—As prices named above are subject to change during the season we request persons desiring to purchase a large quantity to write for special quotations.
DWARF WAX BEANS

ONE QUART WILL PLANT ONE HUNDRED FEET OF ROW

**Culture**—In early May, in a warm and sheltered spot. sow in drills about two inches deep and eight inches apart. Sow every two weeks for succession.

**Golden Wax**—Maturing for the table in about thirty-five days from germination. A flat podded sort. but probably the best known of the yellow. **Pkt. 5c, qt. 30c, pk.$1.50.**

**Dwarf German Wax, Black Seed**—Pods round, meaty, curved, and borne in bunches. ready for the table in about forty days from germination. **Pkt. 5c, qt. 30c, pk.$1.50.**

**White Wax**—Pods broad, flat, yellow, semi-transparent when boiled, of delicate flavor, maturing for table thirty-seven days from germination. **Pkt. 5c, qt. 30c, pk.$1.50.**

**Wardwell’s Dwarf Kidney Wax**—Rust proof, vigorous, pods large, showy, tender and stringless. excellent flavor. and good for either snap or shell. **Pkt. 5c, qt. 30c, pk.$1.50.**

BEANS

DWARF OR SNAP BEANS

**Stringless Green Pod**—Surpasses all others in crisp, tender flavor. The finely shaped long green pods are absolutely stringless. **Pkt. 5c, qt. 30c, pk.$1.50.**

**Early Mohawk**—Very early and will stand more cold weather than most bush varieties. It can be planted earlier. and will furnish beans fit for use before any other kind. **Pkt. 5c, qt. 30c, pk.$1.25.**

**Extra Early Red Valentine**—Color of pods light green and semi-transparent; round and slightly curved. Succulent, prolific and quite free from strings. continuing long in edible condition. **Pkt. 5c, qt. 30c, pk.$1.25.**

**Long Yellow Six Weeks**—A leading market sort. **Pkt. 5c, qt. 30c, pk.$1.00.**

**Early Refugee, or Thousand to One**—Most prolific green podded sort. thick and fleshy. **Pkt. 5c, qt. 30c, pk.$1.00.**

**Giant Stringless Green Pod**—This new Bean has a much larger and handsome pod than the Valentine, and without any strings. It is distinct from the variety introduced as “Burpee’s Stringless,” as Giant has a much longer pod. The Giant Stringless is earlier than the Valentines and more prolific. **Qt. 30c, pk.$1.50.**

**Navy**—The popular white bean for baking. **Qt. 20c, pk.$1.00.**

DWARF LIMA BEANS

**Henderson’s Bush Lima**—Is at least two weeks earlier than any of the climbing Limas, producing a continuous crop from the middle of July until frost. Enormously productive. **Pkt. 5c, qt. 30c, pk.$1.75.**

**Burpee’s Bush Lima**—A dwarf for bush form of the true, large Lima, which is of great value. They are of perfect bush form, growing eighteen to twenty inches high, of stout and erect growth, yet branching and vigorous. **Pkt. 5c, qt. 30c, pk.$1.75.**

**Dreer’s**—Very prolific. single plants often producing 150 to 200 pods and are thick, sweet and succulent. **Pkt. 5c, qt. 30c, pk.$1.75.**
POLE BEANS

ONE QUART WILL PLANT ONE HUNDRED TO ONE HUNDRED AND FIFTY HILLS

Culture—Sow as soon as the soil is warm and dry, about the end of May, in hills about four feet apart each way. Poles eight or ten feet long should be firmly set in the center of the hills before putting in the seed.

Extra Early Jersey Lima—Under favorable conditions, three or four days earlier than the large Lima. Pkt. 5c, qt. 30c, pk. $1.75.

Large White Limas—Smaller seeded than the Jersey, not so strong in vine nor so large in pod. Otherwise excellent in quality. Pkt. 6c, qt. 30c, pk. $1.75.

Horticultural—A showy bean maturing in eighty day. Pods green, dashed with red. Pkt. 5c, qt. 30c, pk. $1.75.

Lazy Wife—The pods are produced in great abundance and measure from six to eight inches in length. The pods retain their rich, tender and stringless qualities until nearly ripe, and are unsurpassed in all stages. Each pod contains six to eight round white beans, which make excellent winter shell beans. Pkt. 5c, qt. 30c, pk. $1.75.

Kentucky Wonder, or Old Homestead—An old favorite with long, fleshy, deeply saddlebacked pods. Very prolific, producing an abundance of fine, stringless, crisp beans until late in the season. Of best quality. Pkt. 5c, qt. 30c, pk. $1.75.

BRUSSELS SPROUTS

ONE OUNCE OF SEED TO ONE HUNDRED YARDS OF ROW

A variety of the Cabbage family, possessing the peculiarity of bearing upon its stem, buds resembling miniature cabbage heads. Pkt. 5c, oz. 15c.

CRESS

Culture—This is used as a salad. It should be sown at close of winter broadcast, or in rows at ten inches and the sowing repeated every two weeks.

Curled—Used for flavoring and as a salad. Pkt. 5c, oz. 10c. Water—Pkt. 5c, oz. 10c.

CAULIFLOWER

ONE OUNCE WILL PRODUCE ABOUT THREE THOUSAND PLANTS

Culture—Same as cabbage, except that they need a cool and moist atmosphere. As the flower heads appear, the large leaves should be broken down over them to shield them from the sun and rain.

Early Snowball—Throughout the country this is considered not only the earliest of all Cauliflower, but it is more certain to make a head than any other sort. Our stock is extra choice and cannot be excelled. Pkt. 5c, oz. 75c.

Extra Early Dwarf Erfurt—A very popular variety. First quality. Pkt. 5c, oz. 75c.

Algiers—A favorite with market gardeners. Try it. Pkt. 10c, oz. 75c.

Dried Soil Cauliflower—This strong growing, fine and showy strain has proven reliable in many dry sections of the country, providing the soil is deep, mellow, rich and well cultivated. It has succeeded especially in the vicinity of St. Louis, Mo., a location where most other sorts fail on account of dry weather. It produces very large broad leaves and large solid and pure white heads. Pkt. 15c, oz. $2.50.

Open orders always filled at lowest prices. If you do not receive our price lists regularly, write for them.
CABBAGE

ONE OUNCE OF SEED TO ONE HUNDRED YARDS OF ROW

Culture.—Soil for Cabbage should be a heavy loam. On such soil, well manured, excellent crops are sure to be grown. Sow the seed in hot-beds in February or March.

We Especially Call Attention to Our Fine First Early Sorts.

FIRST EARLY VARIETIES

Landreth's Earliest Cabbage.—Few outside leaves and short stem. This Cabbage will do well on soil so light that success with late varieties is not possible. Pkt. 5c, oz. 25c.

Select Very Early Jersey Wakefield.—Heading for market in seventy to eighty days. It is very early, short stemmed, head cone shaped. A reliable header and most excellent in all good qualities. Pkt. 5c, oz. 25c.

Reedland Early Drumhead.—To anyone wanting an early flat-headed Cabbage of reliability, we recommend the Reedland Early Drumhead as uniting all the essentials. It will do for first, second and third early, intermediate and late. Pkt. 5c, oz. 25c.

INTERMEDIATE RIPENERS

New York Early Summer.—Heads oval, color bluish-green with lighter colored veins. stem short and stocky. Pkt. 5c, oz. 25c.

All the Year Around.—Spring, Summer, Autumn or Winter, without respect to habit or quality, it is the hardiest of Cabbages; under the heat of summer it stands unflagging. Pkt. 5c, oz. 30c.

Early Drumhead.—Size large, always solid, few extra leaves; rather short in stem and will stand without bursting. Pkt. 5c, oz. 25c.

Burpee's All-Head Early.—The most solid variety on the list. Pkt. 5c, oz. 25c.

LATE VARIETIES

Market Gardener's Large Late Flat Dutch.—No strain is superior and few equal to this. The head is thick, broad, solid and slightly rounded on top, though the variety is what is termed a Flat-head. Pkt. 5c, oz. 25c.

Market Gardener's Large Late Drumhead.—Very choice, late, large, hardy, certain to head, and being of heavy weight, quite productive. Pkt. 5c, oz. 25c.

Danish Ball Head.—The best keeping of all winter sorts. Head round and more solid than any other cabbage known. Pkt. 5c, oz. 30c.

Red Dutch.—Leaves red or purple and exclusively used for pickling. Pkt. 5c, oz. 25c.

Green Curled Savoy.—The finest type of Winter Cabbage. After having been frosted it boils like marrow. The strain is not to be confounded with low priced imported seeds. Pkt. 5c, oz. 25c.

St. Louis Late Market.—Oz. 25c.

USE SLUG SHOT for Cabbage Worms. It kills them. Lb. 15c, 5 lbs. 30c, 10 lbs. 50c.
CELEBR

THREE OUNCES OF SEED TO ONE HUNDRED YARDS OF ROW

Culture—Sow when the apple is in bloom, on a finely raked surface and cover scarcely at all, in a moist place or convenient to water, which apply freely in dry weather. When the plants are four inches more or less in height, transplant a portion into very shallow trenches, formed in well manured land, which planting repeat at intervals of two or three weeks for succession.

Paris Golden Yellow—Very easily blanched. Pkt. 5c, oz. 30c.

White Plume—Self bleaching to a great extent. Desirable as an early sort. Pkt. 5c, oz. 20c.

Large White—The most imposing of all varieties. Pkt. 5c, oz. 20c.

Giant Pascal—A mammoth silver-white stalked variety. Pkt. 5c, oz. 20c.

Turnip Rooted—Grown exclusively for its roots, which are turnip shaped. Used for seasoning meats and flavoring soups. Pkt. 5c, oz. 15c.

CARROTS

ONE OUNCE WILL SOW ONE HUNDRED FEET OF ROW, FOUR POUNDS FOR ONE ACRE

Culture—For early crop, sow in spring as soon as ground can be worked, in drills fifteen inches apart, covering one-half inch; thin plants to three or four inches apart in row. Sow seed from the middle of April to the first of June. A light, sandy loam deeply tilled is the best. A fair average yield is 800 to 1000 bushels per acre.

Ox Heart—Top-shaped. Color, orange-red; tender, flavor excellent. Pkt. 5c, oz. 15c, ¼ lb. 30c, lb. $1.00.

Chantenay Half-Long Scarlet—Short, thick, stump-rooted, orange. Very productive. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. $1.25.

Danver’s Half-Long—Admirable in color, fixed in habit, a wonderful producer. Pkt. 5c, oz. 15c, ¼ lb. 35c, lb. $1.25.

Large White Belgian—Large white root with green top. Grown exclusively for feeding stock. Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 50c.

CUCUMBER

Improved Early White Spine—Used almost entirely for slicing. The fruit is of good size, in quality solid and possesses the habit of retaining its green color for a long period. Pkt. 5c, oz. 10c, ¼ lb. 25c.

Jersey Pickle—Said to “green” better than any other variety, and to “hold color.” Size two to three inches long in sixty days. Pkt. 5c, oz. 10c, ¼ lb. 25c.

Boston Pickling—Pkt. 5c, oz. 10c, ¼ lb. 25c.

Turkey Long Green—Recommended by all who put up their own pickles. Fruit long and slim. This is not the New England Long Green, but a much superior sort. Pkt. 5c, oz. 10c, ¼ lb. 25c.

Early Frame—Pkt. 5c, oz. 10c, ¼ lb. 25c. Early Cluster—Pkt. 5c, oz. 10c, ¼ lb. 25c.

Japanese Climbing—Climbs like a Morning Glory; bears numerous large, excellent fruit, and very desirable when young for pickles. Pkt. 5c, oz. 10c, ¼ lb. 30c. (Davis Perfect Cucumber—SEE NOVELTIES)
**SWEET CORN**

*Culture*—Plant in drills four feet apart; and plants thinned out to eight or ten inches. Sow in succession every two weeks from the beginning of May until the middle of July, and by properly selecting the varieties continuous supply can be had until killed by the frost.

"*Peep O’Day*"—The stalk grows from three to four feet in height. The ears average about five inches in length and are of perfect form. Qt. 20c, pk. $1.00.

Extra Early Adams—Ready for table sixty-two days after germination. Not a sugar corn, but a decided acquisition so very early in the season. Pkt. 5c, qt. 20c, pk. $1.00.

Corey—Edible sixty days after germination. Pkt. 5c, qt. 20c, pk. $1.00.

Extra Early Minnesota Sugar—Among the extra early Sugar Corns. Ears well made out. Pkt. 5c, qt. 20c, pk. $1.00.

Shakers Early—Qt. 20c, pk. $1.00.

Extra Early Crosby Sugar—This variety will produce edible ears in seventy days from germination. Pkt. 5c, qt. 20c, pk. $1.00.

---

**EGG PLANT**

ONE OUNCE OF SEED TO ONE HUNDRED YARDS OF ROW

*Culture*—Sow in hot-beds very early in spring and transplant when two inches high. If planted earlier they are liable to get checked by the cool nights.

New York Improved—Pkt. 5c, oz. 25c.

**ENDIVE**

TWO OUNCEs OF SEED TO ONE HUNDRED YARDS OF ROW

*Culture*—Sow in the spring as soon as the earth is free from frost, and repeat up until sixty days of frost.

Moss Curled—Green and extra curled. Pkt. 5c, oz. 10c.

**KALE**

ONE OUNCE OF SEED TO ONE HUNDRED YARDS OF ROW

*Culture*—Sow in early spring when the oak is in full leaf, and again in early autumn.

Leaves Moss Curled—Height ten inches. Pkt. 5c, oz. 10c.

**KOHL-RABI**

ONE OUNCE OF SEED TO ONE HUNDRED YARDS OF ROW

*Culture*—Any good soil will produce a crop, the plants for which may be grown like Cabbage, in seed beds, for transplanting, or sown in permanent position in three foot rows.

White Vienna—Very rapid in growth, early in maturity. Pkt. 5c, oz. 20c.
LETUCE
TWO OUNCES OF SEED TO ONE HUNDRED YARDS OF ROW

**Culture**—For early crops sow in hot-beds in March and set out in April.

**Black Seeded Simpson**—A cutting variety of unusual merit. Pkt. 5c, oz. 10c, 1/4 lb. 30c.

**Curled Simpson**—A cutting variety similar to and immediately following the Silesian. Pkt. 5c, oz. 10c, 1/4 lb. 30c.

**Virginia Solid Header**—Few leaves outside of the head, late to mature, but slow to shoot to seed. Pkt. 5c, oz. 15c, 1/4 lb. 60c.

**Imperial Cabbage**—A showy white cabbaging variety of very choice quality, uniform in character and in every particular. Pkt. 5c, oz. 10c, 1/4 lb. 25c.

**Speckled Dutch Butterhead**—Compact heads, the leaves possessing the peculiarity of being irregularly dotted with spots resembling iron rust. Pkt. 5c, oz. 10c, 1/4 lb. 25c.

**Largest of All**—Magnificent heads. A very large green cabbaging variety, altogether desirable, both for family and market garden. Pkt. 5c, oz. 15c, 1/4 lb. 50c.

**Grand Rapids**—Strong grower, free from rot, a desirable variety for sowing in the open ground. Pkt. 5c, oz. 10c, 1/4 lb. 30c.

**Heat Resisting Cos**—Crisp, never wilting under the severest sun. It should be in every garden. Pkt. 5c, oz. 15c, 1/4 lb. 50c.

**Romaine, or White Cos**—This is distinct from the ordinary Lettuce, and much liked on account of its crisp, tender quality and delicate flavor. Oz. 15c, 1/4 lb. 50c.

**May King**—It is not easily affected by cold or wet, grows very quickly and produces, even in poor soil, splendid globular heads. Pkt. 5c, oz. 10c, 1/4 lb. 25c.

LEEK
TWO OUNCES OF SEED TO ONE HUNDRED YARDS OF ROW

**Culture**—Sow when the apple is in bloom; if for transplanting, sow in close beds. To secure a full development thin out.

**Musselburg**—Remarkably large. Pkt. 5c, oz. 15c.

**Large American Flag**—Desirable for family use. Pkt. 5c, oz. 15c.

MUSHROOM SPAWN

Good spawn is one of the most important factors in the successful cultivation of Mushrooms, either for use on the table or for supplying the great demand on the market. The spawn sold by us is carefully made from fresh cultures of the well-known edible Mushroom. This spawn is prepared and supplied direct to us by the most careful and efficient growers. We handle only what is known throughout the seed trade as “Pure Culture” and “English” which come in bricks weighing over one pound and which we have proved by both observation and test to be the most satisfactory in use at the present time. Brick 25c, five bricks $1.00.

MUSTARD
FIVE OUNCES WILL SEED ONE HUNDRED YARDS OF ROW

**Culture**—In the spring when the pear is in bloom, drill in rows one foot apart. To have a succession the sowing should be made every two or three weeks until October.

**White**—Pkt. 5c, oz. 10c, lb. 25c.  
**Brown**—Pkt. 5c, oz. 10c, lb. 25c.
MUSK MELLON OR CANTALOUPE

TWO OUNCES OF SEED TO ONE HUNDRED YARDS OF ROW; FOUR POUNDS TO THE ACRE

Culture—When the ground has become warm and dry plant eight to ten seeds to a hill. When up and all danger of insects is past, thin out to three or four.

Extra Early Citron—(First in Market) 60 Days. Form, half flat, fairly webbed, flesh green. The merit of this sort consists in its extra early habit. Pkt. 5¢, oz. 10¢, 1/4 lb. 25¢. lb. 75c.

Extra Early Hackensack—A week or ten days earlier than the old Hackensack. Small foliage; profitable for market. Pkt. 5¢, oz. 10¢, 1/4 lb. 25¢. lb. 75c.

Extra Early Cape May—A very early and large, round Cantaloupe; quality most excellent and exceedingly productive. Fruit deeply ribbed and heavily netted. Flesh deep green, tender, juicy, very sweet, foliage very small and proof against sunshine. Producing well on lightest soils. Pkt. 5¢, oz. 10¢, 1/4 lb. 25¢. lb. 85c.

Emerald Gem—A very small, very early melon; form globular, flattened at the poles. Ribbed, smooth, deep emerald green skin. Pkt. 5¢, oz. 10¢, 1/4 lb. 25¢.

Rocky Ford—A Cantaloupe of great celebrity, grown in Rocky Ford, Colorado. Small in size out of very superior flavor; rind well ribbed, flesh green with a line of gold just be neath the skin. Pkt. 5¢, oz. 10¢, 1/4 lb. 25¢.

Miller's Cream—A favorite salmon-fleshed variety. Large, oval. Slightly ribbed and netted; skin very dark green, very thick and sweet flavored. Pkt. 5¢, oz. 10¢, 1/4 lb. 25¢.

Paul Rose (Petoskey)—In the Paul Rose we have a successful cross of the Osage with the netted Gem, which combines the sweetness of the one with the fine netting of the other. In fact a large size Netted Gem with deep orange flesh. Pkt. 5¢, oz. 10¢, 1/4 lb. 30¢.

Jenny Lind—A very small, early variety, flattened at the poles, of surprising good quality, recommended for family garden, rather small for market. Pkt. 5¢, oz. 10¢, 1/4 lb. 25¢.

Netted Gem—This has become one of the most popular of small or basket melons. The fruit is oval, slightly ribbed, densely covered with coarse netting. Flesh thick. Green, very sweet and highly flavored. Pkt. 5¢, oz. 10¢, 1/4 lb. 25¢.

Banana—An entirely distinct variety, bearing long, slender banana-like fruit. Skin creamy white and entirely free from netting. Flesh deep salmon color, thick and good quality. Pkt. 5¢, oz. 10¢, 1/4 lb. 40¢.

WATERMELON

Coles Early Watermelon Sweet and delicate in texture of flesh, which is a deep red color. The rind is thin, and the quality of the flesh is sustained clear to the rind. The melons are of medium size, nearly round in shape, rind green, striped with lighter shades. Pkt. 5¢, oz. 10¢, 1/4 lb. 15¢. lb. 50¢.

Extra Early—Very desirable as the first Watermelon to ripen. Form cblong, weight from 15 to 16 lbs. Pkt. 5¢, oz. 10¢, 1/4 lb. 20. lb. 60¢.
WATERMELON—CONTINUED

Landreth’s Boss—(Eighty days)—No Melon has ever been introduced which can be compared with the Boss. Everything going to make a perfect Melon: the edible portion of the flesh extending to within less than half an inch of the skin. Pkt. 5c, oz. 10c, ¼ lb. 15c.

Icing—Unexcelled in all good qualities. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 60c.

Dixie—The meat is fine, rich scarlet and of very superior quality. Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 50c.

Florida Favorite—A popular Melon, oblong, green with dark stripes. Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 50c.

Gem—(Kolbs)—A good shipper. Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 50c.

Indiana Sweetheart—Good bearer and standing any amount of rough handling. Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 50c.

Kleckley’s Sweet—This splendid and most sweet Watermelon has certainly become very popular wherever it has been thoroughly tested. It is of superb, luscious flavor. While the skin is perhaps too thin to admit of the Melons being shipped very great distances to market, it is most desirable to plant for home use or local markets. The melons themselves are very large, oblong in form, with dark green skin, thin rind. Oz. 10c, ¼ lb. 15c.

Preserving Citron—Only for winter use. A round, light and dark striped Melon, meat greenish white, used for preserving only; seeds red and small. This should be more generally used. Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 40c.

We make quality a first consideration. No effort is spared to make all our seeds the purest and most reliable.

ONIONS

ONE OUNCE WILL SOW ABOUT 100 FEET OF ROW, FOUR POUNDS WILL SOW ONE ACRE

Culture—Sow as early in the spring as practicable in rich, light soil, in drills about fifteen inches apart, and when the plants are up thin to three or four inches.

There is no vegetable where the quality of the seed exerts a greater influence upon the crop than in Onions. Good Onion seed is of the utmost importance. Sowing seed to produce large onions is the cheapest, easiest and most satisfactory way. Large onions can easily be grown the first year from the seed by obtaining our seed.

Extra Early Red—Matures very early; of medium size, flat shape, deep red in color, very close grained, solid and heavy. This will often form bulbs in cold and mucky soils where other varieties fail. It is recommended particularly for the North and Northwest. Pkt. 5c, oz. 15c, ¼ lb. 30c, lb. $1.00.

Extra Early Long-Keeping Brown Australian—Planted with the Red Wethersfield, it proved to be nearly four weeks earlier and ripened off more uniformly. It will keep longer in good condition than any other Onion known. The color of the skin is a clear amberbrown. Pkt. 5c, oz. 15c, ¼ lb. 30c.
ONIONS—CONTINUED

Large Red Wethersfield—Grow to a large size; fine form, skin deep red, fine grained and very productive; an excellent keeper. Our seed of this variety is extra select and cannot be excelled. Our price is low, but should you want five pounds or more, ask for special rates. Pkt. 5c, oz. 15c, $0.25 lb. 55c, lb. $1.50.

Southport Red Globe—Matures quite early (none of the globe-shaped onions are as early as the flat varieties;) grows to a large size, skin deep red, flesh fine grained; mild and tender. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. $1.50.

Southport White Globe—A showy, large white variety. Pkt. 5c, oz. 20c, lb. $2.50.

Mammoth Prizetaker—Admittedly the largest of all varieties, having been grown to the enormous weight of over three pounds. Of a clear, bright straw color and uniform perfect globe-shape. Produces enormous crops and they bring an extra price. Keep wonderfully well and present the handsomest possible appearance in the market, while the pure white flesh is fine grained. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. $1.50.

Giant White Garganus—Also known as Silver King. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. $1.50.

Italian Queen—An extra early, small, silver skin onion. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. $1.25.

Silver Skin or Portugal—Best white Onions for sets. Oz. 20c, lb. $2.00.

OKRA

TWO OUNCES OF SEED TO ONE HUNDRED YARDS OF ROW

Culture—Plant the seed when the apple is in blossom, in drills three feet apart, and eight or ten inches between the plants. The seeds are liable to rot in the ground and should be put in thickly. Very rich ground is demanded by this vegetable. It is necessary to make an earlier and a later sowing to secure an uninterrupted supply throughout the season.

White Velvet—Tender, white pods. Pkt. 5c, oz. 10c.

PARSNIP

THREE OUNCES OF SEED TO FIFTY YARDS OF ROW.
EIGHT POUNDS TO THE ACRE

Culture—When the apple is in bloom, sow in shallow drills in good ground, deeply dug; cover the seed lightly. When the plants are up two or three inches, thin them to stand four inches.

Bloomsdale—The Bloomsdale is the best bred and handsomest Parsnip to be found. It is half long, wedge-shaped; hollow crowned and very broad at the shoulders, easily taken out of the ground, and producing more tons to the acre than the longer and more slim varieties. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.

PARSLEY

TWO OUNCES OF SEED TO ONE HUNDRED YARDS OF ROW

Culture—Sow in early spring in rows twelve inches apart. Thin out the plants to four inches. To preserve in winter transplant in cold frames or light cellar.

Plain or Single—Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 50c.

Fine Curled or Double—Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.

Moss Curled—Pkt. 5c, oz. 15c, ¼ lb. 25c, lb. 75c.

Hamburg, Turnip Rooted—Fleshy roots; used in soups and stews. Oz. 15c, ¼ lb. 40c, lb. $1.00.
PEAS

ONE QUART WILL PLANT ONE HUNDRED FEET OF DRILL. THREE BUSHELS PER ACRE

Culture—For the first early crop, sow as early as the ground can be worked, and at intervals of two weeks for succession. Sow in single or double rows, two inches deep and from three to four feet apart, according to the height and variety and strength of soil, supporting tall varieties with brush. Plant early varieties in August and you will get a profitable crop by fall.

Landreth's Extra Early Peas—The earliest of all very early peas. It is very profitable for the gardener, ripens uniformly, so that all the pods may be picked within seven weeks from the time of planting, and that at one picking. No brush or other support is required, as they seldom, under any circumstances, grow to exceed twenty inches in height. Pkt. 5c, qt. 30c.

Alaska—A variety of remarkable earliness and hardiness. It is a good yielder and produces pods of good size and dark green color, which are well filled with round, smooth peas of splendid flavor. Height two feet. The color of the dried pea is green. It ripens very evenly, so that one picking will nearly clean off the crop. Pkt. 5c, qt. 30c.

First and Best—Pods are good size and well filled with round, smooth peas of excellent flavor. Extremely early, productive, and ripen all at the same time. Pkt. 5c, qt. 30c.

American Wonder—Vine six to eight inches high, and very prolific in pods of striking form and size. In maturity it is among the first earliest. Pkt. 5c, qt. 30c.

Nott's Excelsior—An improvement on American Wonder, a shade earlier and large podded. Vine almost identical. Pkt. 5c, qt. 30c.

McLean's Little Gem—Admirable second early, maturing for table fifty-four days from germination. Pkt. 5c, qt. 30c.

Prosperity, or Gradus—This remarkable Pea is not only large and of the best quality, but is nearly or quite as early as the small, round, extra early sort. Gradus is a wrinkled Pea, with a vine growing about thirty inches high. The pods are of a bright green color, and measure four inches or more in length, being as large as a Telephone, and equally as well filled with luscious peas, eight to ten or more in a pod. Pkt. 5c, qt. 50c.

Champion of England—One of the best. Delicious flavor; profuse bearer of large pods, well filled with large green wrinkled peas; four feet. Pkt. 5c, qt. 30c.

Main Crop Long Island Marrowfat—Used profitably by market gardeners, being productive, showy in the basket, the pods having somewhat the appearance of Telephones, but are earlier by four or five days, being ready to pick for market in sixty days. Pkt. 5c, qt. 30c.

Irish Large White Marrowfat—Pkt. 5c, pt. 15c, qt. 25c.

Peruvian Black-Eyed Marrowfat—Plant on thin soil. Pkt. 5c, pt. 15c, qt. 25c.

Lawn grass is a very voracious feeder and will not thrive and hold its beautiful dark green color and velvety appearance unless it receives a sufficient supply of suitable food. Because so few appreciate this fact is the reason there are so many poor, rusty-looking lawns. Stable manure is unpleasant to handle, ill looking and decidedly odorous, and it is also full of waste material. It contains weed seeds which are obnoxious and it often takes years to eradicate the weeds, causing an unnecessary amount of labor. All these objections are obviated by the use of our Lawn Fertilizer.
PEPPER

ONE OUNCE OF SEED TO ONE HUNDRED YARDS OF ROW

Culture—Start the plants under glass in the early spring, or outside when the apple is in bloom, against the shelter of a board fence or garden wall. Transplant after corn-planting time: setting in rows at three feet and two feet in the row.

Small Chili Red—Fruit red. Very hot. Pkt. 5c, oz. 20c.
Very Small Cayenne—Very superior to the old Cayenne, bearing fruit all over the plant. Fruit one inch in length and very hot. Pkt. 5c, oz. 30c.
Cayenne—Fruit three inches in length. Pkt. 5c, oz. 25c.
Golden Bell—Similar in form to Sweet Spanish. Pkt. 5c, oz. 20c.
Large Sweet Spanish—Generally used for pickles. Pkt. 5c, oz. 25c.
Bull Nose—Larger fruit than the Sweet Spanish. Very hot. Pkt. 5c, oz. 20c.
Celestial—From one to two inches long. Fruit, green from the blossom, turning alternately to lemon, golden and scarlet. Pkt. 5c, oz. 25c.
Mangum Dulce—See Novelties.

PUMPKIN

TWO QUARTS TO THE ACRE. HILLS EIGHT BY EIGHT FEET

Yellow Cashaw—Large, yellow crook-neck, weigh as high as 60 to 100 pounds. Not the winter crook-neck squash, four times as big and ten times as desirable. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 75c.
Cheese—Shape flat, like a cheese box. Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 40c.
Common Field—Pkt. 5c, lb. 50c.
Monster Yellow—Growing to the weight of 100 to 200 pounds. Pkt. 5c, oz. 10c, lb. 75c.

RHUBARB

FOUR OUNCES OF SEED WILL SOW ONE HUNDRED YARDS. TEN POUNDS TO THE ACRE

Culture—Sow the seed when the cherry is in bloom, in rows at one foot and thin the plants to ten inches. Mark the ground 3x4 or 4x4 feet, preparing a rich bed for each plant. Success can only be obtained on well manured ground. The fertilizing cannot be overdone. Oz. 10c.

We supply roots as well as the seed. They continue vigorous many years. Price 75c per dozen; 10c each. They are shipped only by express, being too heavy for the mails.

RADISH

TWO OUNCES OF SEED WILL PLANT ONE HUNDRED FEET OF ROW

Culture—Sow early in the spring in rows a foot apart, and every week or ten days for a succession up to the middle of June, after which they are but little used, unless a cool northern spot can be secured. Sow in early fall for late crops and winter use.

Earliest Scarlet Turnip—Among quickest maturing of the Red Turnip Radishes. Small root and small top. An excellent forcing variety. Pkt. 5c, oz. 10c, ¼ lb. 20c.

White Tipped Early Scarlet Turnip—Scarlet bulb with white bottom, very showy and delicate; a choice variety. Pkt. 5c, oz. 10c, ¼ lb. 20c.
RADISH—CONTINUED

French Breakfast—Olive shaped, the upper part of bulb scarlet, the bottom tipped with white. Pkt. 5c, oz. 10c, ¼ lb. 20c.

Early Scarlet, Olive Shaped—Clear, deep scarlet; flesh tender and excellent, very early; fine for forcing and general crop. Pkt. 5c, oz. 10c, ¼ lb. 20c.

Market Gardners' Early Long Scarlet—An admirably long variety for forcing, fully ten days earlier than the Long Scarlet, and very superior to it for that reason. Twenty-three days to maturity. Pkt. 5c, oz. 10c, ¼ lb. 20c.

White Ladyfinger—Twenty-three days to maturity. A large white, crisp variety about half as long as the Long Scarlet and similar in shape. A very desirable sort, decidedly the best of its kind ever introduced. An admirable market sort of nutty flavor. Pkt. 5c, oz. 10c, ¼ lb. 20c.

Early Long White Vienna—An early long white variety of good quality. Pkt. 5c, oz. 10c, ¼ lb. 20c.

White Strasburg—Long, white, early to develop, and keeping in edible condition for five or six weeks. Pkt. 5c, oz. 10c, ¼ lb. 20c.

Long White Icicle—Half long, slightly stump rooted; matures quickly, suitable for forcing. Pkt. 5c, oz. 10c, ¼ lb. 20c.

Golden Globe—Shape globular, color amber, flavor mild, keeping long in eating condition. Pkt. 5c, oz. 10c, ¼ lb. 20c.

Earliest White Turnip, Short Top—Of quick growth, roots round, pure white. Leaves short, flavor excellent, fine for forcing and open ground. Pkt. 5c, oz. 10c, ¼ lb. 20c.

Round Black Spanish—A winter Radish, cultivated in autumn, and keeping like a potato for months after harvesting. Pkt. 5c, oz. 10c, ¼ lb. 20c.

Scarlet China Winter—Root a half-long stump two or three inches, tipped with white, keeps perfectly. Pkt. 5c, oz. 10c, ¼ lb. 20c.

White Wonder—See Novelties.

SPINACH

SIX OUNCES OF SEED TO ONE HUNDRED YARDS OF ROW. THIRTY POUNDS TO THE ACRE

Culture—Sow when the peach is in bloom, in drills at one, two or three feet, or broadcast, which is the usual system. If sown in drills, six ounces of seed will sow one hundred yards of row, or a square equal to ten by ten yards, if sown broadcast.

Bloomsdale Spinach—Curled quality, giving the leaves an elasticity while at the same time giving the crop large measuring qualities, many more barrels of the Bloomsdale Spinach being cut to the acre than any other variety. Pkt. 5c, oz. 10c, lb. 20c, 10 lbs. $1.75.

Ever Ready—So named because it arrives at cutting size as soon as any other sort, and continues in cutting condition three weeks longer than the latest. Pkt. 5c, oz. 10c, lb. 20c.

Long Standing Prickly Seeded—Same habit as the round seeded, seed prickly. Pkt. 5c, oz. 10c, lb. 20c.
SQUASH

THREE OUNCES OF SEED WILL SOW ONE HUNDRED YARDS. THREE POUNDS TO THE ACRE

Culture—This seed may be planted first when the apple is in bloom, and for several weeks subsequently.

Extra Early Bush—(Forty days)—Maturing fruit for table use within forty days from germination. Pkt. 5c, oz. 10c, ¼ lb. 20c.

Golden Summer Crookneck—(Forty days)—Best of the Summer Squashes, golden in color. Pkt. 5c, oz. 10c, ¼ lb. 20c.

Hubbard—This old variety has for years stood the test of all rivals; hard green shell; flesh bright orange yellow, fine grained, very dry, sweet and of a rich flavor. Pkt. 5c, oz. 10c, ¼ lb. 25c.

Warty Hubbard—The wartiness indicates a very hard shell, which is one of the best features of a long keeping Squash. Pkt. 5c, oz. 10c, ¼ lb. 25c.

SALSIFY, OR OYSTER PLANT

FOUR OUNCES OF SEED WILL SOW ONE HUNDRED YARDS

Culture—This plant produces an edible root, long and slim, white fleshed and smooth, white skin. Sow when the cherry is in bloom, in drills, in deeply dug and well manured ground; the drills should be eighteen inches apart. When the plants are up a few inches, weed and thin them so as to stand four or five inches from each other. Preserve in pits, same as Carrots and Beets. Cultivate in all respects as directed for carrots.

Sandwich Island—Producing smooth, large and vigorous roots. Pkt. 5c, oz. 15c, ¼ lb. 35c.

TOBACCO

ONE OUNCE OF GOOD SEED IS SUFFICIENT FOR AN ACRE

Culture—Sow seed for plants early in spring in frames or seed-beds, using soil well enriched with wood ashes, etc. Transplant to open ground when weather has become warm and settled, in rows four feet apart and give cultivation as for corn.

Acclimated Havana—Pkt. 10c.

TABLE TURNIP

THREE OUNCES OF SEED WILL SOW ONE HUNDRED YARDS. FOUR POUNDS TO THE ACRE

Culture—For early Turnips, sow as soon as the ground can be worked in the spring. For winter use sow in July.

Extra Early Purple Top Milan—The bulb is very flat, of medium size, quite smooth, with a bright purple top. Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 50c.

Early Flat Red or Purple Top—Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 40c.

Early Flat Dutch—Pkt. 5c, oz. 10c, lb. 40c.

Large Early Red-Top Globe—A very much heavier producer than any of the preceding. We confidently recommend it as an acquisition. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.

Golden Ball—A small yellow Turnip of second size, early and a good keeper. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.

Amber Globe, Green Crowned—Is a vigorous, free grower, valuable for both table and cattle feeding. Productive and a good keeper. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.

Yellow Aberdeen, or Scotch Yellow—This is a highly approved Cattle Turnip, attaining a large size. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.

Bloomsdale Swede, or Ruta Baga—The Bloomsdale is delicate in texture, purple crowned, golden skinned, almost perfectly globular in form, and earlier to mature than any other known form of Ruta Baga. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.
TOMATO
ONE OUNCE WILL PRODUCE ABOUT TWO THOUSAND PLANTS

Culture—Sow in the hot-bed in early spring. Transplant into the open ground as soon as all danger of frost is past. Some support should be provided for the vines to keep the fruit from touching the ground.

SPARK'S EARLIANA

The Earliest, Large, Smooth, Red Tomato—This is not only remarkable for its earliness, but for its very large size, handsome shape and bright red color. Its solidity and fine quality are quite equal to the best medium and late sorts. Pkt. 5c, oz. 25c.

NEW GLOBE TOMATO

A good general cropper, and one of the very best for first early crop; on stakes or trellis. An entirely distinct and fixed new sort. Every grower of Livingston's New Globe, whether he grows for private or market purposes, will be pleased with the beautiful and attractive globe-shaped fruit. Pkt. 5c, oz. 25c.

DWARF STONE TOMATO

The strong, upright growth allows very close planting, at least a half closer each way than the distance required by the ordinary vining varieties. In small gardens the plants may be set 18x24 inches apart each way, and yet produce an abundant crop. Pkt. 5c, oz. 25c. ¼ lb. 75c.

Dwarf Champion—Fruit borne in showy clusters, quite large, nearly round, solid, red color with purple tint. Pkt. 5c, oz. 25c, ¼ lb. 75c.

Early Acme—Very productive; fruit of medium size, perfect form, round, slightly depressed at the ends, and very smooth: a glossy red with purple tinge. Pkt. 5c, oz. 25c. ¼ lb. 50c.

Livingston's Stone—Its solidity and carrying qualities are remarkable. Its color is a desirable red; in shape perfectly smooth and thicker from stem to blossom than most varieties. Pkt. 5c, oz. 25c, ¼ lb. 75c.

Perfection—Invariably smooth and of a handsome blood-red color. All who have tried it pronounce it of the highest quality. Pkt. 5c, oz. 25c, ¼ lb. 50c.

Livingston's Beauty—Large size, always smooth, perfect in shape and excellent in quality. Color is very glossy crimson. Pkt. 5c, oz. 25c, ¼ lb. 80c.

Ponderosa—The fruit ripens quite early and keeps on coming until very late. Of immense size, solid, almost seedless. The fruits are somewhat scattered on the vine. Pkt. 5c, oz. 30c, ¼ lb. 85c.

Peach Tomatoes—It is desirable for eating from the hand. The skin is thin and peels off like a peach. Oz. 25c.

Golden Queen—Pkt. 5c, oz. 25c.

Pear Shaped Yellow—Pkt. 5c, oz. 25c.

Grape, Cherry or Currant—Fruit borne in clusters; very desirable for pickles or preserves. Ornamental. Pkt. 5c, oz. 25c.

Husk, or Strawberry—This delicate husk-enveloped Tomato is unequalled for making preserves and pies. They are handsome in color. Pkt. 5c, oz. 30c.

Open orders always filled at lowest prices. If you do not receive our Price Lists regularly, write for them.
HERBS

For flavoring soups, meats, etc., a few pot and sweet herbs are necessary for every garden. If they are to be used during the winter, the stocks should be cut on a dry day, when not quite in full bloom. They should then be dried quickly in the shade, and when dry be packed closely in boxes, with the air entirely excluded.

Sage—Leaves and tops are used for seasoning and stuffing. Pkt. 5c, oz. 10c.

Summer Savory—The leaves and young shoots are used for flavoring, especially for boiled string beans. Pkt. 5c, oz. 15c.

VEGETABLE PLANTS

Cabbage, Early—Ready by April 20th. Extra Early Wakefield, All-Seasons and, Early All-Head. Doz. 10c; 100 55c; 1000 $4.25.

Cauliflower, Early—Ready by April 20th. Snowball and Extra Early Erfurt. Doz. 15c; 100 $1.00; 1000 $6.00.

Celery, Early—Ready in June. White Plume, Golden Self-Blanching. Doz. 10c; 100 50c; 1000 $4.00.

Egg Plant—Ready about May 15th. New York Improved Purple. Doz. 20c; 50 60c; 100 $1.00.

Pepper—Ready about May 15th. Bell or Bull Nose, Sweet Mountain, Extra Ruby, King and Cayenne. Doz. 20c; 100 $1.00.

Sweet Potato—Ready about May 15th. Yellow Jersey. 100 35c; 1000 $2.50.

Tomato—Ready about May 15th. Acme. New Stone. Dwarf Champion, Ponderosa. Doz. 10c; 100 75c; 1000 $7.00.

Chives—10c per bunch.

ONION SETS

SUBJECT TO FLUCTUATIONS

These are the product of seed, and are used for "green" onions or to produce large onions, which they do much quicker than can be grown from seed.

White Bottoms—Our sets of this are very choice, small, dry and unsprouted. Bu. (32 lbs.) $3.00; pk. 90c; qt. 20c.

Yellow Bottoms—Fine dry sets, medium in size and unsprouted. Bu. $2.50; pk. 90c; qt. 15c.

Red Bottoms—Bright, deep red in color, even and dry. Bu. $2.50; pk. 90c; qt. 15c.

SEED SWEET POTATOES

Yellow Jersey—Prices on application.
SELECTED FARM SEEDS
SUBJECT TO MARKET CHANGES

Fully appreciating the great importance of good field crops, we have given particular attention to this department of our business, and have made the selection of Farm Seeds a specialty, exercising great care to secure the best varieties, thoroughly cleaned and of the finest possible quality.

CORN

Pride of the North—This variety has been grown and improved in the extreme northern part of Iowa. Pk. 60c, bu. $1.75.

Extra Early Dent—Ripening in ninety days. The ears are small, but is a great yielder. Pk. 60c, bu. $1.75.

Iowa Gold Mine—Pk. 60c, bu. $1.75.

Improved White Dent—Pk. 60c, bu. $1.75.

Legal Tender—Is a heavy Corn, rich in fattening substance, and will sell for the highest price upon any market. Pk. 60c, bu. $1.75.

White Pearl, Silver Mine, Leaming—Pk. 60c, bu. $1.75.

POP CORN

Queen’s Golden—Pkt. 10c, pt. 15c, qt. 25c.

White Rice—Pkt. 10c, pt. 15c, qt. 25c.

SUGAR CANE—KAFFIR CORN

Twenty-five pounds or over, 8c per pound. Send for special price.

CHOICE SEED POTATOES

PRICES SUBJECT TO MARKET CHANGES

A Change of Seed is Absolutely Necessary to insure large crops of Potatoes. The difference in yield will many times pay the cost of new seed. At the price we offer Potatoes no one can afford to plant his own seed, if it has been grown in the same soil two years or more. Some of our patrons buy seed of us each year, rather than to plant that of their own growing, and the universal success with which our patrons have met by planting them assures us of the fact that our Seed Potatoes are unsurpassed.

Extra Early Ohio Potatoes are selected with utmost care, and the result is grand. such as to delight everyone who knows and appreciates a good Potato. Pk. 50c, bu. $1.75.

Early Six Weeks—Potatoes are marketable size in six weeks after planting. It is certainly a very early and a very good Potato. Pk. 50c, bu. $1.75.

Clark’s No. 1—Handsome, uniformly large; an enormous yielder. Pk. 50c, bu. $1.75.

Rural New Yorker—Intermediate in ripening and unsurpassed in table quality. Pk. 50c, bu. $1.75.

Bliss Triumph—One of the earliest Potatoes; chunky in shape, medium size, pink skin. An exceedingly fine sort. Pk. 50c, bu. $1.75.
GRASS AND CLOVER SEEDS

Customers understand that prices on Grass and Clover Seeds are changing almost daily, and that we can only give prices subject to market fluctuations. Those wanting seed in larger quantity than here quoted should write for special prices.

Blue Grass—Sow in fall and spring at the rate of two or three bushels per acre. Fancy, clean seed. (Bu. 14 lbs.) Price on application.

Orchard Seed—Furnishes an abundance of pasture during the entire season. One and a half to two bushels per acre. (Bu. 14 lbs.) Price on application.

Red Top Grass—Thrives best in low land, and produces a very firm sod. Lb. 30c.

Timothy—Write us for latest prices.

English Rye Grass, Perenial Rye—(Bu. 24 lbs.) Lb. 25c.

Brome Grass—The yield of hay varies from one to four and a half tons per acre, according to climatic conditions and fertility of soil. (Bu. 14 lbs.) Lb. 15c.

CLOVERS

Mammoth Clover—Being a rank grower it is largely used for plowing under as a fertilizer.

White Dutch.

Medium or Common Red—The most important and valuable of the clover family for agricultural purposes. Sow 15 pounds to the acre. (Bu. 60 lbs.)

Alsike—On rich, moist soil, it yields an enormous quantity of hay or pasturage, but its greatest value is for sowing with other clover and grasses, as it forms a thick bottom, has fibrous roots like White Clover. Esteemed highly by the beekeeper.

Alfalfa—Very popular in many portions of the country. Prices quoted on application.

GRASS SEED MIXTURES

FOR MEADOWS AND PASTURES

It is a well ascertained fact that a thicker and more prolonged growth is produced by a mixture of many sorts of grasses than by only one or two. For every different kind and condition of soil there are grasses which are especially suitable. Some sorts do best on high ground and in dry weather. Others prefer plenty of moisture. Some mature so early, and others so late, that from the beginning of spring until winter sets in there is no time when one species or another is not at its best. 25 lbs. to the acre. Price on application.
LAWN SEED

It will produce an even dense growth of permanent sward as early in the season as it is possible to do. This mixture contains no annual grasses for making quick show to the detriment of a good lawn, but only those of lasting value and hardiness, which when once established, need no reseeding for years. Our seed, which we know to be as pure as can be found anywhere, is of the best varieties, best suited for even and permanent growth; it is carefully cleaned. Lb. 40c.

FOR SHADED LAWNS

A selection of the fine grasses which thrive naturally under the shade of trees or buildings, or are suitable for light, sandy soil. This mixture was extensively used on the World's Fair grounds, where it gave splendid results. Lb. 40c.

QUANTITIES TO USE

One pound for 400 square feet...... $ .40 Fifteen pounds for 6000 square feet......$4.90
Five pounds for 2000 square feet..... 1.85 Twenty-five pounds for ¼ acre...... 8.25
Ten pounds for 4000 square feet..... 3.45 Fifty pounds for ½ acre.............16.25

Kentucky Blue Grass—Many prefer this to a mixture of grasses, and the fact cannot be denied that a lawn of Blue Grass only is magnificent. It takes longer, however to get it established. Lb. 50c.

White Clover—Extra choice seed. Lb. 50c.

Red Top Grass—Fancy clean seed. Where an immediate effect for one season is desired there is none better than the Red Top Grass, as it comes up quickly and makes a beautiful lawn, but the grass is liable to winter-kill. Lb. 50c.

LAWN FERTILIZER

Lawn grass is a very voracious feeder and will not thrive and hold its beautiful dark green and velvety appearance unless it receives a sufficient supply of suitable food. Because so few appreciate this fact is the reason there are so many poor, rusty-looking lawns. Stable manure is unpleasant to handle, ill looking and decidedly odorous, and is also full of waste material. It contains weed seeds which are obnoxious and it often takes years to eradicate the weeds, causing an unnecessary amount of labor. All these objections are obviated by the use of our Lawn Fertilizer. If the lawn is in fair condition it is only necessary to rake off the dead leaves and grass in the early spring and scatter broadcast over its surface some of our Lawn Fertilizer with a little Lawn Seed over the thin spots, and the work is done.

DIRECTIONS FOR USE

The first application should be made early in the spring, as soon as the frost is out of the ground, at the rate of twenty-five pounds of fertilizer to every 1000 square feet of lawn, evenly distributed. For seeding down a new lawn scatter double the amount, say fifty pounds of fertilizer, broadcast on every 1000 square feet and rake it in thoroughly before sowing the seed. Lb. 5c, 8 lbs. 55c, 25 lbs. $1.00, 50 lbs. $1.75, 100 lbs. $2.75.
FLOWERS

Our constant aim is to secure the very best strain obtainable, both of home and foreign growth, and we spare no pains and expense with this object in view.

ASTERS

For profusion of flowers and richness of display the Asters are unrivaled, and constitute the principal adornments of our gardens during the autumn.

QUEEN OF THE MARKET

The earliest of all the Asters. Grows about nine inches high and very branching; the fine double flowers are produced freely on long stems, making it valuable for cutting. Pure White 10c, Blue 10c, Crimson 10c, Mixed 5c.

SEMPLE'S BRANCHING

A beautiful class of Asters, useful for cut flowers. The flowers are very large, and double, borne on long, stiff stems, and the colors are clear and handsome. A favorite with florists. Pink 10c, White 10c, Dark Red 10c, Lavender 10c, Mixed, ½ oz. 25c, pkt. 5c.

Produces the largest flowers of all the Asters; fine for border or pots. One foot.

CHRYSANTHENUM FLOWERED

Mixed—Pkt. 5c.

By selecting one of each of the three above varieties you will have a continuous bloom of choice Asters through the entire season. The set of three for 10c.

PAEONY FLOWERED PERFECTION

A magnificent globe shaped. Seeds saved from the most perfect of this grand strain. 1 ½ feet. Snow White 10c, Pink 10c, Crimson 10c, Light Blue 10c, Dark Scarlet 10c. Mixed, many choice colors, ½ oz. 25c, pkt. 5c.

VICTORIA

A beautiful class. Flowers very large and perfectly double, of globular shape and beautifully imbricated. Plants grow in fine pyramidal form about eighteen inches high. All colors mixed, ½ oz. 25c, pkt. 5c.

GIANT COMET

This class is one of the handsomest of the tall growing sorts. The plants grow about eighteen inches high and bear in great abundance their immense flowers. These flowers, with their long, twisted petals, strikingly resemble Japanese Chrysanthemums. Snow White, of immense size, 10c. Striped 10c, Pink 10c, Mixed 5c.

VIOLET KING ASTER

A NEW AND DISTINCT VARIETY

In shape and size the bloom is round, full and very large, many of the flowers measuring from four to five inches in diameter. Its color is soft violet lilac. Pkt. 10c.

GLORIA OR BUTTONHOLE ASTER

The plants grow to a height of ten inches, are very branching and free blooming. As many as forty flowers have been counted on many plants. The flowers are about two and one-half inches in diameter and pure white with a brilliant scarlet margin. Pkt. 10c.
ALYSSUM—SWEET
A very desirable, hardy annual, flowering from early spring until killed by the frost. Pkt. 5c, oz. 40c.

Little Gem—Three to four inches high. They soon become one mass of white, remaining in full bloom from spring to fall. Pkt. 5c, ¼ oz. 15c.

AMARANTHUS
A most beautiful plant: height two feet; the leaves are long and narrow, the upper ones of the brightest glowing crimson. Pkt. 5c.

ANTIRRHINUM
The Snapdragon is an old favorite with, dark, glossy leaves and curiously shaped flowers. Mixed, all colors. Pkt. 5c.

ALYSSUM

AGERATUM
Princess Pauline—Of dwarf compact habit, its peculiarity being that both colors, blue and white, are combined in the same flower. Pkt. 5c.

BUTTERFLY FLOWER—THE POOR MANS ORCHID
It grows well if sown in the open ground in March or April, where it is to bloom, but may also be sown in frames and transplanted later into the garden or pots, and if sown in August or September, several plants together in a pot, cultivated in a cool greenhouse or conservatory, they will make a splendid show in winter. Pkt. 10c.

BALSAM
Camilla, Flowered, Snow White—Pkt. 5c.
Solferino—Beautiful striped and spotted. Pkt. 5c.
Double Spotted—In splendid mixture. Pkt. 5c. Mixed from above and other kinds. Pkt. 5c.

BALOON VINE—LOVE IN A PUFF
A rapid growing climber: thrives in light soil. One of the prettiest climbers. Pkt. 5c.

BALSAM APPLE—MOMORDICA
Curiously trailing vines; with ornamental foliage and odd shaped fruit, which when ripe, open, showing a brilliant red interior. Pkt. 5c, oz. 25c.

SCHIZANTHUS OR BUTTERFLY FLOWER

BACHELOR'S BUTTON
Hardy annual; flowers freely in almost any situation. For cut flowers they are largely used. Choice Mixed .................. Pkt. 5c
White ............................... 5c
Brilliant Rose .................. 5c
Purple ............................... 5c
Double Blue—See Novelties.

CANDYTUFT
Universally known and cultivated. Considered indispensable for cutting:
White Rocket .................. Pkt. 5c
New Carmine .................. 5c
Mixed Colors .................. Oz. 20c. 5c
CALENDULA-POT MARIGOLD
FREE BLOOMING AND ATTRACTIVE PLANTS, GROWING WELL IN ALL SITUATIONS

Meteor—This magnificent variety has large and beautiful imbricated double flowers, with stripes of deep orange on a pale yellow ground. Pkt. 5c. Fine Mixed—Pkt. 5c, oz. 25c.

COLEUS
Mixed—Splendid selection. Pkt. 5c.

COBAAEA
A fine rapid growing climber, large bell-shaped flowers, beautiful deep violet blue. Pkt. 5c.

COSMOS
A magnificent race of plants growing about three to four feet high, and in fall literally covered with graceful flowers resembling single dahlias, but better for cutting. As a cut flower for vases or personal wear, its grace and beauty are unequaled.

New Early Blooming—Coming into bloom in about two months from time of sowing and continuing until destroyed by frost. The plants have fine feathery, light green foliage and delicate rose, purple, white and lilac flowers. Mixed colors. Pkt. 5c.

Mammoth Perfection—Flowers double the size of the old large flowering Cosmos, measuring twelve to fifteen inches in circumference; the petals are broader and overlapping: flowers white, pink or crimson. Pkt. 5c.

Woodside Early Flowering—Pkt. 5c. Lady Lenox—See Novelty page.

CANNA
Are erect and stately plants, from two to six feet in height. The leaves are green in some varieties, and in some purplish and reddish. The flowers are bright colors, red or yellow, and variously marked. Pkt. 5c.

CYPRESS VINE
This is a most beautiful climber, with delicate dark green feathered foliage and an abundance of bright, star-shaped rose, scarlet and white blossoms.

White .......... Pkt. 5c, oz. 25c  Scarlet .......... Pkt. 5c, oz. 25c
Rose ........... Pkt. 5c, oz. 25c  Mixed ............ Pkt. 5c, oz. 25c

CALLIOPSIS-COREOPSIS
Mixed Colors of every shade. Pkt. 5c.

CHrysanthemums
The flowers are borne on long stems, and are represented by a great variety. The single ones are particularly handsome. Pkt. 5c.

A nice lawn adds greatly to the value of any place. It is easily, quickly and cheaply made by using our Lawn Grass seed described on another page.
COCKSCOMB

Producing crested heads of flowers, resembling a cock's comb. **Fine Mixed**, Pkt. 5c.

CUCUMBER

WILD

A handsome, hardy climber, valuable for covering unsightly objects, tree stumps, etc. It is a rapid grower, attaining a height of twenty-five to thirty feet. The beautiful green foliage is dotted over with small white flowers, which develop into small prickly fruit, making an attractive display throughout the entire season. Pkt. 5c.

CARNATIONS

MARGUERITE

Without exception the most abundant bloomers of all. The flowers are of perfect form, large and very sweet-scented. The different colors range through many beautiful shades of red, pink, white, variegated. Pkt. 5c.

CAMpanula

CANTERBURY BELL

The Campanulas are a very large genus of showy plants, mostly perennial. The Campanula, medium (Canterbury Bell) claims a situation in all gardens. Easy of culture and certain to flower, all succeed well in good soil. Plant 8x12 inches. Pkt. 5c.

DIGITALIS

FOXGLOVE

Handsome, stately growing plants, with beautiful mottled, thimble shaped flowers; produced in profusion on a long stem usually about three feet high. The racemes of flowers are about two feet long. **Fine Mixed**, Pkt. 5c.

DOUBLE DAISY

Give it a cool, partially shaded place. Sow seeds very early. The flowers are abundant in early spring, and may be made to flower later by the use of water.

**Longfellow**—Has very double dark rose flowers; come true from seeds, of unusual size. Pkt. 5c.

**Snowball**—A large and very double pure white Daisy of the Longfellow type. Flowers on long stems, excellent for cutting. Pkt. 5c.

**Double Mixed**—Finest German seed. Pkt. 5c.

**Swan River Daisy**—A dwarf free-bloomer, excellent for baskets and edgings; blue flowers. Pkt. 5c.

A nice lawn adds greatly to the value of any place. It is easily, quickly and cheaply made by using our Lawn Grass Seed described on another page.
BURBANK'S SHASTA DAISIES

Can be grown out of doors by everybody where it is not cold enough to kill the oak trees. They are perennial, blooming better and more abundantly each season. They can be multiplied rapidly by simple division, and they are not particular as to soil. They bloom for several months, in California nearly all the year. The flowers are very large and graceful, averaging about four inches, often more in diameter, with three or more rows of petals of the purest whiteness, on single, strong, stiff, wiry stems, nearly two feet in length. Pkt. 10c.

DIANTHUS

PINK

All of this beautiful class of Pinks are hardy and will flower the second season if not allowed to flower too freely the first season.

DOUBLE VARIETIES

Chinese Double, Mixed............................... Pkt. 5c
Dwarf Snowball—Fringed white........................ Pkt. 5c
Dwarf Fireball—Blood-red, globe-shaped flowers ... Pkt. 5c
Choice Double, Mixed—Splendid for bouquets .... Pkt. 5c

DAHLIAS

Many people are not aware that Dahlias from seed sown in the spring will bloom beautifully the first summer, and give quite as good, if not better satisfaction than bulbs.

Double Large Flowering—Choice mixed, from selected flowers only................................. Pkt. 5c
New Single—Mixed colors. The flowers of Single Dahlias are large, perfectly star-shaped, formed of broad petals, which are gay and beautiful in color .................. Pkt. 5c
Burbank's Dahlia Seed—See Novelties, page 2.

DAHLIA

"TWENTIETH CENTURY"

The New Orchid Flowered Dahlia—The flowers are very large, single, 4 1/2 to 6 inches in diameter, of perfect form and exquisite finish. The color is intense rosy crimson, with white tips and white discs around the yellow center. The color contrasts are exquisitely lovely and can be compared with the beautiful orchids. The flowers have stems two to three feet long, keeping a long time after being cut in perfect condition. In addition to the rare beauty of the flower it combines a sweet fragrance. Pkt. 10c.

FORGET-ME-NOT

The Forget-Me-Not is an old and favorite plant, bearing clusters of star-shaped, delicate blue flowers with white and yellow eyes. Pkt. 5c.

FOUR O'Clock

MARVEL OF PERU

Old-fashioned, but none the less beautiful; makes a pretty hedge. Flowers are funnel-shaped, white and striped, very fragrant, and open about four o'clock in the afternoon, remaining open all night. Hybrid Mixture, Pkt. 5c, oz. 25c.

ORNAMENTAL GOURDS

A GOOD CLIMBER

Most sorts are good for twenty to thirty feet in a season, and the blossoms of some are striking and handsome. With all sorts the fruit is unique and ornamental, and often useful. If you have an old tree, dead or nearly so, Gourds will cover it to perfection. The small, fancy gourds are excellent toys for children, while the larger gourds may be used a dippers. Mixed, many beautiful varieties, pkt. 5c. oz. 50c.
GAILLARDIAS

Of magnificent and wonderful profusion, the flowers are greatly admired for their fine forms and rich blending of colors; they thrive anywhere.

**Fine Mixed Varieties**—Pkt. 5c.

HOLLYHOCK

For a background to a flower garden perhaps no plant is so useful. The flowers are as double as the Rose, of many shades of color.

**Double Pure White** .............................................. .5c
**Double Lemon Color** ........................................... .5c
**Double Crimson** .............................................. .5c
**Double Flesh Color** ........................................... .5c
**Extra Choice**—Double mixed, many kinds. ................... .5c

**Mammoth Flowering, “Allegheny Hollyhock”**—From four to six inches in diameter, ranging from semi-double to double, and finely fringed and curled. The colors are shell-pink, rose and ruby-red, a shade or two deeper at the center and exquisitely tinted toward the edge.

**Everblooming** .................................................. Pkt. 5c

HYACINTH BEAN

A rapid growing plant, flowering freely in clusters. For covering arbors, trellises, etc. Sow the seed in the garden where desired. **Mixed**—Pkt. 5c.

HUMULUS

A rapid growing climber, with luxuriant foliage; excellent for covering veranda, etc. Withstands heat and drouth well, and is not covered with insects.

**Variegated Japan Hop**—Pkt. 5c.

HELIOTROPE

Flowers purple, borne in trusses, and exceedingly fragrant. Delights in light, rich soil.

**Extra Choice Mixed**—Pkt. 5c.

HIBISCUS

These immense flowers are pure white, with a large crimson eye, often measure seven inches in diameter, and a plant will often have as many as fifty of them. It blooms from seed the first year, sown in the open ground. A perennial, and lasts year after year. **Pkt. 5c.**

JOB’S TEARS

An old-fashioned but valuable remedy for sore throat, goiter and teething babies, when the seed is strung on linen thread and worn around the neck as a chain. They are cheaper than amber beads, which are used for the same purpose, and are a sure cure. Two ounces make a chain. **Pkt. 5c. oz. 15c.**

KOCHEA, OR “BURNING BUSH”

Kochia Tricophylla—A highly ornamental annual of unusually rapid growth, which forms regular pyramids from two to three feet in height, having a cypress-like appearance. The leaves are slender and of a light pea-green until September, when they change to carmine and blood-red. Its bright autumn coloring has given it two other names, “Mexican Fire Plant” and “Burning Bush.” **Pkt. 5c.**

LARKSPUR

Producing beautiful spikes of double flowers in many colors. If sown early in the spring they will flower in June or July. **Pkt. 5c.**
LINUM

Grandiflorum Rubrum—(Scarlet flax)..............Pkt. 5c

LOBELIA

The profusion of their charming little flowers render them extremely ornamental. Very fine for hanging-baskets.

Crystal Palace—Dark blue, splendid.........................Pkt. 5c

MARIGOLD

Lemon Queen, pkg. 5c.  Orange Prince Pkg. 5c.
Mixed, Pkg. 5c.

MIGNONETTE

It is in bloom nearly the whole season, and the perfume is so strong and fragrant that the whole atmosphere around is perfumed.

Golden Queen—It is a mass of
golden yellow.........................5c  15c
Machet..................................5c
Brilliant Rose..........................5c
Defiance..................................5c
Roseda Odorata, Large flowering 15c

MOON FLOWERS

Beautiful climbers and exceedingly attractive, mixed with other climbers. Flowers of graceful form. Pkt. 5c.

Japanese Imperial Morning
Glories—The varieties of color are infinite, running from snow-white through all possible shades of blue and of red, from palest pink to darkest reds and purples. They are streaked, mottled, striped, marbled and bordered in wonderful fashion, and sometimes show rare shadings of ash-gray, bronze, terra cotta, brown and slate-blue, colors rarely found in any other flowers. The leaves are also very handsome. Pkt. 5c, oz. 25c.

Double Flowering—They are white, with a slight spot of red or blue at the base of the larger petals. About 80 per cent of the seedlings will reproduce themselves true from seed. When sown early in the spring, a long season of beautiful double flowers will repay you. Pkt. 5c.

Morning Glory—Suitable for covering arbors, windows, trellises, old stumps, etc. It is so perfectly hardy as to grow in almost any soil. Mixed pkt. 5c, oz. 15c.

NICOTIANA

SWEET SCENTED TOBACCO PLANT

An annual with sweet-scented, pure white, star-shaped flowers, three inches across, blooming continually. If the plants are taken up in the fall, cut back and potted, they will bloom nicely in the house during the winter. Two to three feet. Pkt. 5c.
NASTURTIUMS

Should not be planted in too rich soil. The dwarf varieties are among the most useful of annuals, for bedding, massing, etc., owing to their compact growth, richness of color and profusion of blooms. The tall sorts are admirably adapted for rock work, covering trellises or rustic work.

DWARF NASTURTIUMS

Empress of India—Foliage purple-blue, bearing brilliant, deep scarlet flowers, a profuse bloomer of a most showy class. Pkt. 5c, oz. 20c.

King of Tom Thumbs—Quite distinct, leaves very dark, flowers rich crimson; a very brilliant, effective sort. Pkt. 5c, oz. 20c.

Bronze Curled—Flowers of bronze, metallic lustre, a very distinct color. Pkt. 5c, oz. 20c.

Cattel’s Crimson—Showy variety, equal to any in startling effect. Pkt. 5c, oz. 20c.

Pearl—Flowers white, a rare color among Nasturtiums, producing a pleasant effect. Pkt. 5c, oz. 20c.

King Theodore—One of the best dark red sorts, with dark, blush-green foliage; a great favorite with florists. Pkt. 5c.

Mixed Dwarf Sorts—A mixture of the best dwarf sorts, producing when in bloom an agreeable effect of colors of scarlet, crimson, bronze, gold and white. Pkt. 5c, oz. 15c.

Queen of Tom Thumbs—See Novelties.

TALL NASTURTIUMS, THREE TO TEN FEET

Pearl—Delicate creamy-white flowers, contrasting finely with the orange, gold and scarlet of more brilliant varieties. Pkt. 5c, oz. 20c.

Spit Fire—Remarkable in its intensity of startling brilliancy; one of the finest sorts. Pkt. 5c, oz. 20c.

Bright Rose—Very choice sort, producing a rose colored flower. Pkt. 5c, oz. 20c.

Dunnett’s Orange—A very vigorous grower, producing a showy, deep orange flower. Pkt. 5c, oz. 20c.

Chameleon—On one and the same plant are found self-colored flowers, others stained and blotched on a clear ground, while others are broadly edged or banded with light or dark shades. Pkt. 5c.

Golden Cloth—Distinct and striking. The foliage is of a bright yellow while the flowers are intense scarlet. Pkt. 5c.

Mme. Gunther’s Hybrids—For richness and variety of colors, these new Hybrids have no equal among Nasturtiums. There are shades of rose, salmon, brightest rose, pale yellow, either as self colors or striped and spotted. The foliage is mostly dark and contrast very effectively with the rich colors. They are climbers and continuous bloomers. Contains a great many colors that are not found in any other mixture. Pkt. 5c, oz. 20c.

Black Prince—(New Climbing)—Undoubtedly the darkest colored variety amongst the whole collection of Lobb’s Climbing Nasturtiums. The plants are of strong, vigorous growth and produce their flowers very freely. When unfolding their buds the color is a deep blackish-purple, which changes to a velvety-black when in full bloom. The shade of color is much darker than that of the well-known “King of the Black.” The foliage is exactly as rich and dark as that of the Dwarf Nasturtium “Empress of India.” Very effective. Pkt. 5c.

Virchow—(Climbing)—The flowers are of a distinct ruby-rose, shading into lighter and darker tints. Pkt. 5c.

Jupiter—(Climbing)—The flowers, which are very numerous, measure 3½ inches in diameter. They are exquisitely formed, with overlapping, crinkled petals. The color is a bright golden-yellow, with a glow of orange around the throat. Pkt. 5c.

Mixed Tall Sorts—A combination of many tall varieties; colors, white, cardinal, orange, rose, scarlet, etc. Pkt. 5c, oz. 15c.

PORTULACA

ROSE MOSS

Makes a dazzling display of beauty; many hued, highly colored; are in bloom from about the first of July until frost. Plant in open ground, after it has become warm, in light, sandy soil and in a dry situation. Bed should be exposed to the sun. Double Rose-Flowered—Perfectly double, of many brilliant colors, as well as striped. Pkt. 5c.
PANSY

This superb collection cannot be surpassed for size, shape, markings or richness of color of the flowers. No pains are spared to make this strain absolute perfection in form, firmness of texture, size and freedom of bloom, and elegance and variety of markings and colorings.

**BUGNOTS**—A celebrated French strain, very large. Pkt. 10c.

**CASSIER'S FIVE BLOTCHED**—Round flowers of great substance, with each petal finely blotched. Pkt 10c.

**MASTERPIECE**—Frilled and curled. The flowers are very large, borne very freely well above the plant. Pkt 10c.

**Odier Blotched**—Rich colors. Pkt. 10c

**English Show Mixture**—Very fine. Pkt. 5c

**Belgian Striped**—Rich colors. Pkt. 5c

**Black**—Rich colors. Pkt. 5c

**Bronze**—Rich colors. Pkt. 5c

**Mixed**—All above varieties and many others. Pkt. 10c

POPPIES

Showy and ornamental plants, with large flowers of brilliant colors. Very attractive in large beds. They are of very easy culture, and succeed in any garden soil.

**Carnation Flower**—Splendid double flowers, mixed colors. Pkt. 5c.

**The Shireley**—Delicate shades of rose, pink and carmine to deep crimson. Pkt. 5c.

**California Poppy**—Of many brilliant and showy colors. Pkt. 5c.

**New Oriental Hybrid Poppies**—For brilliancy of colors there is nothing to equal these Oriental Poppies. The flowers are of enormous size, often measuring over six inches in diameter, while the colors range from soft flesh and rose to the most brilliant, dazzling scarlet and richest maroon-purple. Their culture is as simple as the garden Poppies. They are perfectly hardy perennials, living through our winters with but little protection and increasing in size and beauty from year to year. Pkt. 5c.
PETUNIA
Petunias will produce their handsome, sweet scented flowers in their delicate and gorgeous colors throughout the whole summer. Pkt. 5c.

Petunia Giants of California—The flowers are very large, and the colors embrace every conceivable shade of crimson, white, violet, lavender, etc. Pkt. 10c.
See Novelty Page.

DOUBLE PETUNIA MIXTURE OF DOUBLE PETUNIAS
This is a mixture of the best large flowering and fringed double Petunias. Carefully hand fertilized and will produce grand flowers. Of course everyone knows that only a certain percentage of double flowers may be expected from seed, but our mixture will produce from 20 to 30 per cent. of doubles, while the remainder will be choice, large single flowers. Pkt. 25c.

PHLOX DRUMMONDII
The Phlox Drummondii, for splendid mass of colors and a constant display, is not excelled by any other annual or perennial. Pkt. 5c, oz. 75c.

Star Phlox—A regular star-like form, of compact habit, and bears large flowers. Pkt. 5c.

RICINUS
CASTOR OIL BEAN
Magnificent, tall growing foliage plants, very useful as specimen plants on lawns or groups in center of large beds. Their brilliant leaves and fruits create a grand sub-tropical effect.

Barboniensis—Very large and handsome foliage; fifteen feet. Pkt. 5c. oz. 10c.

SWEET WILLIAM
Giant Flowered Single—The single flowers are often as large as a twenty-five cent piece, and are simply enormous in comparison with the old-time Sweet William. Pkt. 5c.

Giant Flowered Double—Like the above it is an improvement on the old-fashioned Sweet William, producing umbels of enormous size. Pkt. 5c.

SMILAX
Charming, tender perennial climber for window gardens. Pkt. 5c.

NEW SALVIA
Drooping Spikes—This new flowering Salvia (Scarlet Sage) has three times the flowering capacity on each spike of the ordinary Salvia Splendens. The flowers are produced in great numbers, causing the spikes to droop with their own weight. Pkt. 5c.
In comparatively the last few years Sweet Peas have taken a new place in our affections. when the frilled, or Countess of Spencer varieties appeared, and now they may be obtained in so many distinct and almost true colors, as to have deposed the older types. They have large, round open flowers of extraordinary size, usually two inches across, with waved, fluted and crumpled standard and wings. A large percentage bears four of these immense flowers to a stem, which is extremely long and wiry, making them exceptionally valuable for cut flowers.

**HOW TO GROW SWEET PEAS**

The soil for Sweet Pea should be rich and deep, a good rich loam with plenty of well rotted manure in it, is the ideal soil for raising good plants that will produce plenty of blooms of good substance. They should be in a position fully exposed to the sunlight and air on both sides of the row. They should be sown as early in the season as the ground can be worked, which is usually between the middle of March and April. It is best to make a trench about six inches deep, in the bottom of which sow the seed thickly. Cover the seed with about an inch of soil, pressing it down firmly. As soon as they are above the ground, thin out to two or four inches apart. when the balance
of the soil may be filled in. During dry weather they should be watered thoroughly and frequently and given an application of liquid manure occasionally. A mulch of raking from the lawn will be found beneficial during hot weather.

**WHITE CLASS**

*White Spencer*—A pure White Countess of Spencer.

*Princess Kathrine*—A black seeded white.

**PINK CLASS**

*Apple Blossom*—Crimson-pink on white standard.

*Mrs. Hard Castle Sykes*—A blush-pink, of large size.

*Countess of Spencer*—True pale pink, darker edge.

*Dorothy Tennant*—Deep rose, mauve.

*Lovely*—Soft shell-pink.

**LAVENDER AND PURPLE CLASS**

*Princess Alice*—A lavender spencer.

*Mrs. Walter Wright*—A beautiful mauve.

*Captain of the Blues*—Standard purple, wings blue.

*Navy Blue*—Deep violet-blue.

*Lady Grisel Hamilton*—Best of all lavender sorts.

*Lord Nelson*—Deeper and richer than navy blue.

**RED CLASS**

*King Edward VII*—A dark rich red.

*Miss Millie Maslin*—Rosy-crimson.

*Prince of Wales*—A brilliant rosy-red.

**PRICE**—Any of the above 10c per pkt., 15c per oz., 50c per ¼ lb., $1.50 per lb.

**STEWART’S SELECT SPENCER MIXTURE**—10c per oz., 30c per ¼ lb., $1.00 per lb.

**VERBENA**

One of our finest bedders, displaying a great variety of shades. Plants from seeds produce more flowers than those from cuttings.

*Extra Choice Mixed*—Very fine. Pkt. 5c.

*Scarlet Defiance*—Glowing scarlet. Pkt. 5c.

*Pure White*—Pkt. 5c.

*Pink*—Pkt. 5c.

*Blue*—White eye. Pkt. 5c.

*Auricula Flowered*—Striped. Pkt. 5c.

**THE WILD-FLOWER GARDEN**

Our Wild-flower mixture consists of many varieties of beautiful, easy growing flowers, producing a constant and varied bloom the whole season, for sowing in shrubbery, under trees and in beds, on which no care will be bestowed or even for sowing in exposed situations, where wildness is preferred to order and precision. Large pkt. 5c.

**ZINNIA**

The Zinnia is a beautiful annual and general favorite, its splendid double flowers rivaling in beauty, size and form, moderate sized Dahlias. They bloom until frost sets in.

*Extra Choice Mixed*—Finest strain. Pkt. 5c.

*Pure White*—Pkt. 5c, oz. 50c.

*Dwarf Scarlet*—Pkt. 5c, oz. 50c.

*Golden Yellow*—Pkt. 5c, oz. 50c.

*Double Crimson*—Very double. Pkt. 5c, oz. 50c.

*Double Pink*—Pkt. 5c, oz. 50c.

*Carnation Striped*—Flowers are of perfect form, double and as finely striped as a Carnation. Pkt. 5c, oz. 50c.
HARDY PERENNIAL PLANTS

No home ground is complete without a collection of hardy perennial plants and bulbs, and the demand for these is increasing wonderfully with every succeeding season. We have simply been astounded at the evergrowing interest in ornamental gardening all over this country. We are growing the best stocks of these subjects, as will surely give every satisfaction to beginners as well as experts. By proper selection, one may have flowers in abundance from April to November, and a pleasing picture by proper arrangement for color effect. The plants may be arranged in formal designs or along the shubbery border. They bloom so freely that one may cut and come again, and are so easily grown that anyone may succeed with them. Moreover, the cost need deter no one from having a choice selection, since the plants are permanent, and once planted remain from year to year with but little care and hardly any winter protection in our climate. We have a very fine lot of these plants of our own growing. They are well rooted and sure to give entire satisfaction. Many perennial plants are mere weeds. The list offered below has been carefully selected, and comprises only varieties of real merit.

Aquilegia—Columbine—The distinct, clear cut foliage and delicate arrangement of colors in the flowers of Columbine make it one of the showiest and most desirable of the hardy garden plants, especially suitable for rock work, at the base of foundation walls and under trees. Each 10c, doz. $1.00.

Bleeding Heart—Dielytra Spectabils—Pretty spring bloomers, with graceful, drooping sprays of heart-shaped pink and white flowers; very ornamental and bloom freely early in the season. Hardy, increase in size from year to year. Each 25c and 35c.

Boltonia Asteroids—This beautiful hardy perennial grows to a height of four feet and is very showy when covered, during the summer and autumn, with its countless pure white, single aster-like flowers. Valuable for cutting. Each 15c, two for 25c. doz. $1.50.

Coreopsis Lanceolata—A beautiful hardy border plant fifteen to eighteen inches high; bright golden-yellow flowers in great profusion the entire season. A handsome vase flower for table decoration. Each 10c, doz. $1.00.

Digitalis—Fox Glove—A choice garden variety in mixed colors, including white. Each 15c, doz. $1.50.

Giant Daisy—Great Ox-eye or Giant Daisy—Upright in growth, attaining four to five feet, with bright green foliage. White with bloom from mid-summer to autumn. The great snowy flowers have yellow centers, and are from two to three inches across. Each 15c. doz. $1.50.

Daisies—Shasta—No other flower is of greater usefulness. They are very hardy; can be grown out doors where it is not cold enough to kill oak trees. They are perennial, blooming better and more abundantly each season; can be multiplied rapidly by division of roots and are not particular as to soil. They bloom for several months—in California nearly all the year. The flowers are large and graceful, with three or more rows of petals of the purest glistening whiteness, borne on single stems nearly two feet in length. Each 15c. doz. $1.50.

Funkia—Day Lily—By some called Plantain Lily. A superb autumn flower, desirable to plant on the side of lawns or at the edge of shubbery: succeeds in either sun or shady places. Fine for cemetery. Each 35c.
HARDY PERENNIAL PLANTS—CONTINUED

Golden Glow—Rudbeckia—A beautiful, hardy perennial, eight feet high, blooming from July to September. Flowers double, deep golden yellow, borne on long stems, making it suitable for cutting. One of the most effective decorative plants for garden or lawn. Each 10c, doz. $1.00.

Gaillardia Grandiflora—Blanket Flower—Of all hardy plants, the Gaillardia is very satisfactory. Begins to bloom in early summer and continues until after first frost. Perfectly hardy. Flowers two or three inches in diameter, with center of brownish red, while petals are shaded into rings of orange, crimson and red. Stems long; grand for cutting; does well in any soil. Each 15c, two for 25c.

Hollyhocks—For planting in masses by itself, or as a background for lower growing plants, the Hollyhock plant cannot be dispensed with. Once planted they keep coming up year after year. Can supply the following separate colors: White, Lemon, Pink, Red and Maroon. Each 16c, doz. $1.50.

Allegheny—We can this year offer you a splendid lot of these New Fringed Double-Flowering Hollyhocks. Try them, they are fine. Mixed colors, each 15c, doz. $1.50.

Hibiscus—Crimson Eye—A robust grower, with dark stems and foliage. Flowers large, sometimes six inches across, purest white with large spots of deep velvet crimson in center. Perfectly hardy; blooms first year in open ground. Each 15c, two for 25c.

Vinca—Periwinkle—A well known evergreen trailing plant, extensively used in the cemetery for covering grave mounds. It is also very valuable for carpeting under trees and in shady places, being an excellent substitute for grass. Each 10c, doz. $1.00.

Achillea—The Pearl—The flowers are borne in great profusion and are pure white; double; blooms all summer. Each 25c.

Hardy Poppies—Papaver Orientale—Nothing can equal this in gorgeous effect, and whether planted singly or in masses, their large flowers, rich coloring and freedom of bloom render them conspicuous in any position. They grow three feet high and bloom from May to August. Goliath—Flowers scarlet, of enormous size. Each 25c, doz. $2.50.

Helianthus—Hardy Sunflowers—The perennial Sunflowers are among the most effective hardy plants for hardy borders, for planting among shrubbery or as clumps on the lawn. Multiflorus Plenus (Dahlia Sunflower) loaded with yellow flowers; excellent for cut flowers; five feet. August to September. Each 25c.

Hemerocallis—Yellow Day Lily. Each 15c.

German Iris—Fleur-de-Lis—The German Iris is one of the most desirable early spring flowering plants. No garden is complete without a collection of these beautiful flags. Each 10c, doz. $1.00.

Mixed Japanese Iris—We have a large mixed stock of extra fine bulbs in best varieties, and offer these at the following low price: $1.50 per dozen.

Iris Sibirica Orientals, “Yale Blue”—Among the free-growing Iris, adapting themselves to almost any position, and producing a mass of deep blue flowers under the most adverse conditions from June to August. First size, each 15c.

Pure Gold—Each 10c.

Mixed, all Colors—Each 5c, doz. 50c. Fine for border or bedding.

Delphinium—Hardy Larkspur—The Hardy Larkspurs are one of the most important and satisfactory plants in the herbaceous garden, and should be planted extensively even in the smallest garden. Their long spikes of flowers are produced continuously from June until late in the fall. Each 15c, doz. $1.50.

Platycodon—Balloon Flower or Japanese Bell Flower—The Platycodons are closely allied to the Campanulas, and form neat branched bushes of upright habit, which bear a continual succession of flowers from June to Oct. Each 15c, doz. $1.50.

PAEONIES

WILL LAST A LIFETIME WITH LITTLE CARE

These great big-hearted flowers grow from one to three feet high, producing the most magnificent blooms. The plants are never attacked by either insects, animal or fungal disease. Paeonies will succeed in most any kind of soil, but give best results when planted in a deep, rich and somewhat moist loam.

Humei—Immense, cinnamon centered pink. L’Esperence—Splendid, fragrant, early pink. Queen Victoria—Standard white. Andre Lauries—Late, fragrant, red.

Victoria Tricolor—Pink, cream and white.

Prices of above five kinds, each 25c, the five for $1.00.
HARDY PERENNIAL PLANTS—CONTINUED

HARDY PHLOX

CHOICE PERENNIAL VARIETIES

Hardy Phloxes have long been so popular that it is rare to find a garden without a collection of at least a few of the many beautiful varieties now in cultivation. No plant is more attractive or more useful either for the adornment of the garden or for supplying cut flowers. The gardener's art has succeeded wonderfully in producing varieties which are marvels of beauty, both as to size of blossoms and variety, richness and delicacy of color. To those not familiar with these plants we desire to say that they are perfectly hardy, and succeed well in almost any kind of soil. Small plants are usually selected to start with, as they increase rapidly in size, not in height so much, which is from two to three feet, but in the number of flower stems, which multiply year after year.

Albatros—Pink, shaded purple.
Andreas Hoffer—Pure white.
Bacchante—Dark crimson, salmon-pink eye.
Beranger — White, suffused with pink, rosy-lilac eye.
Boule de Feu—Bright salmon, crimson eye.
Bridesmaid—Pure white, crimson eye.
Comte—Dark red.

Any of the above, each 10c. or set of seven 50c, post paid.

HARDY ORNAMENTAL SHRUBS

SNOWBALLS

Japan Snowball—(Viburnum Plicatum).—This Japanese variety of the old-fashioned Snowball is one of the most valuable of our hardy shrubs. It forms an erect, compact bush, six to eight feet high. It blossoms in early June, and for a long time is a solid mass of white. The plant is completely covered from the ground to the top of the branches with large balls of flowers, as white as snow. Bushes three feet high, each 35c.

Old-Fashioned Snowball—(V. Sterilis).—Bushes two to three feet high. Each 35c.

VIBURNUM

Dentatum—May and June. A free flowering shrub, especially admired for the abundance of its scarlet fruits that cling to the branches a long time. Two to three feet. Each 50c.

Opulus—(High-bush Cranberry).—May. Spreading habit. Single white flowers borne in flat, imperfect clusters, followed by clusters of berries that cling to the leafless branches all winter. Three to four feet, each 50c.

RHODOTYPHUS

Kerrioides—A very ornamental shrub of medium size with handsome foliage and large single white flowers in the latter part of May, succeeded by numerous small fruits. Two feet, each 35c.
HARDY ORNAMENTAL SHRUBS—CONTINUED

SPIRAEA (MEADOW SWEET)

Anthony Waterer—(New Perpetual-Blooming Red Spiraea)—A fine hardy, perpetual-blooming shrub, particularly desirable for the lawn. Makes nice, round bushes, three feet high and wide; beginning to bloom almost as soon as planted; rosy-red flowers in large, round clusters all over the bush. One to two feet high. Each 25c, doz. $2.50.

Van Houttii—A splendid garden shrub, entirely hardy and one of the most beautiful of all; immense bloomers; pure snow-white flowers. This is the plant for the people. Bushes two to three feet high. Each 25c, doz. $2.50.

PHIADELPHUS, OR SYRINGA (MOCK ORANGE)

Indispensable well known shrubs that are prized for their beautiful foliage and white flowers. The taller kinds flower profusely and nothing is finer in their season. Each 35c.

ALMOND, DOUBLE FLOWERING

A desirable class of early flowering shrubs blooming in early spring. The flowers are double and are either pink or white. Strong bushes two to three feet, pink or white, 35c.

TAMARIX

Shrubs of strong but slender, upright growth, clothed in foliage as light and feathery as that of the asparagus. Their delicate fringing flowers are usually some warm shade of pink or red, and very ornamental at the back of shrubbery border. Each 35c.

CORNUS (DOGWOOD)

Siberica—(Red Siberian Dogwood)—A rare and remarkable variety with bright red bark in winter. Strong bushes three to four feet. Each 50c.

LILACS

These old favorites are so well known that any description would seem superfluous. Suffice to say they are indispensable.

Persica—(Persian Lilac)—A very popular plant; flowers purple. Each 35c.

Vulgaris—(Common Lilac)—Larger foliage than the former; flowers purple. Each 35c.

Alba—Flowers pure white. Each 35c.

HONEYSUCKLES

Chinese Sweet-Scented Honeysuckle—A fine variety of vigorous growth, white and yellow flowers. A very fragrant and constant bloomer. Each 25c.

Evergreen Sweet-Scented Honeysuckle—A hardy, vigorous grower; blooms nearly all the season; deliciously fragrant; flowers buff, yellow and white; very desirable for veranda and trellis work. Each 25c.

Red Coral Honey-Suckle—A hardy, rapid grower, suitable for rock-work, etc. Bright red, trumpet-shaped flowers. Each 25c.

HYDRANGEA (PANICULATA GRANDIFLORA)

One of the finest hardy shrubs in cultivation. The flower trusses are immense heads from nine to twelve inches in length and nearly as broad. Color purest white, changing to deep pink as the season advances. It blooms in July, at a time when no other shrub is in flower, and remains beautiful until destroyed by frost. Hardy as a lilac bush. The plants we offer will all bloom the first season. Prices according to size. First size, each 50c.

JAPANESE CLAMATIS (CLEMATIS PANICULATA)

This is by far the best of all the Clematis of the small flowered class. A vine of very rapid growth, quickly covering trellises and arbors with handsome, clean, glossy foliage, which is of that healthy green color that so few of this class of plants possess. The flowers are pure white, borne in immense sheets, almost completely hiding the foliage, and of the most delicious fragrance. It flowers in September, when few other flowers are in bloom. The extreme rapidity of growth, the showy foliage, beautiful fragrant flowers, and hardiness serve to make this one of the choicest of recent productions. Prices: One year, each 25c, two years, each 55c, three years, each 50c.

Clematis: Jackmanii Purple, each 50c and 75c.
SUMMER FLOWERING BULBS

Many of the most showy, attractive and inexpensive and easiest grown of all summer and autumn flowers are contained in this important class. There are scarcely any other flowers that can compare with the noble and brilliant spikes of the Gladiolus, the grace and elegance of the Lily, the purity and sweetness of the Tuberose, the majestic foliage of the Caladium.

Bulbs for spring planting require scarcely any care, and quickly make a gorgeous display, while the bulbs can be kept over winter, and year after year will return a hundred fold in beauty and satisfaction the trifling expense of the original cost.

CANNAS

Canna tubers should not be put in the ground until the soil has become warm. They commence blooming in June and continue until late in September. Every shoot bears a flower, and these shoots are being constantly produced throughout the blooming season.

Canna Robusta—Of luxuriant dark bronze foliage. Six to eight feet. Fine for hedge or background. 5c each. 50c doz.

GLADIOLUS

The Gladiolus is the most attractive of all the summer flowering bulbs, and deserves a place in every garden, as it is sure to flower and do well with very little care.

Set the bulbs from six to nine inches apart, and about four inches deep. Plant from middle of April to first of June. It is a good way to plant two or three different times, ten days to two weeks apart. This will give a succession of blooms from July to November.

AMERICA—Soft flesh-pink. PRINCEPS—Scarlet. MRS. FRANCIS KING—Light scarlet, new. AUGUSTA—Pure white with blue anthers. BLUE JAY—Dark blue. 10c each. $1.00 per doz. postpaid. FINE MIXED—4 for 10c, doz. 25c. EXTRA FINE MIXED—3 for 10c, doz. 35c. LEMONIES HYBRID MIXED—Each 5c, doz. 50c.

CALADIUM ESCULENTUM

Elephants Ears—One of the most effective and easily grown plants for the lawn or flower border. Will thrive in any ordinary garden soil, but to get the best results plant in rich soil and give plenty of water. With such treatment a select size bulb will make a plant about five feet high with leaves three feet long and twenty inches wide. 50c. $1.00 and $1.50 per doz.

MADERIA VINE

A rapid growing, graceful vine, with smooth waxy, dark green leaves, and dainty recemes of tiny fragrant white flowers. Will grow in almost any situation. Two for 5c, doz. 25c.

CINNAMON VINE

In midsummer the plant is covered with a brilliant, glossy foliage and an abundance of fragrant flowers. Extra large roots, 10c each, three for 25c, doz. 51.

TUBEROSES

One of the best known and most easily grown summer flowering bulbs. Easily recognized by its exquisite fragrance and beautiful flower spikes which are borne on long stems, making it an admirable cut flower for house decoration. Three for 10c, doz. 55c.
DAHLIAS

In recent years owing to the introduction of many beautiful new varieties originating in this country, the Dahlia is a great favorite everywhere. Nor is this difficult to understand considering that the Dahlia is easy to grow, commences to bloom in July and are thereafter a mass of bloom until cut down by frost.

A. D. Lavoni—Beautiful soft pink with quilled petals.

Gem—Deep crimson. Very double and a good bloomer.

Goliath—Deep garnet red; long stem.

Henry Sherber—Salmon, large and fine.

Nymphaea—Light pink, long stems, fine to cut.

Mrs. Winters—The very best pure white.

Kriemhilde—Exquisite shell pink, shading to white.

Paul's Scarlet—Brightest scarlet.

Queen of Yellows—A beautiful clear yellow.

Snow—White, profuse bloomer.

Sylvia—Flowers white, shaded to soft pink.

Twentieth Century—An intense rosy-crimson tipped with white.

Lyndhurst—The best bright scarlet with long stems.

Red Indian—Deep coral-red, long stem, very large.

Wm. Agnew—Best intense glistening scarlet crimson. Immense size.

Bon Maza—White marbled with brilliant red.

Snow Clad—Best small white.

Red Bird—Deep garnet-red.

Miss Nellie Stewart—White, shading to pink at the tips of the petals.

Floral Park Jewell—Rich purple-red, tipped and striped with white. Sometimes solid color.

3/4 NATURAL SIZE

DAHLIA

Clifford W. Bruton—The finest canary yellow.

Mrs. Hartong—Splendid bronze, new and large.

Salmon Queen—Very large, soft salmon.

Progress—Soft rosy lake, beautifully penciled and spotted glowing crimson.

Cathrine Duer—Extra large, scarlet-vermillion.

SPECIAL OFFER No. 1

Price each 15c, four for 50c, twelve for $1.50 postpaid.

SPECIAL OFFER No. 2

The following superb Dahlias at 10c each, or set of seven, postpaid for 50c.

American Beauty—Color like an American Beauty Rose.

Water Lily—Pink and resembles a Water Lily.

Golden Queen—Golden yellow and free bloomer.

Crimson King—Ox-blood-red, very prolific.

Bride—A good white.

Salmon Prince—A good clear salmon.

Boquet Royal—Rich crimson tipped with white.
“FIELD GROWN” TWO-YEAR-OLD HARDY HYBRID PERPETUAL ROSES

THE HYBRID PERPETUALS are considered the most valuable of all Roses. They are chiefly distinguished by their vigorous growth and fine large flowers and for being entirely hardy. They are particularly valuable for permanent beds or borders in the northern and middle states. Many of them flower the entire summer; others flowering through the month of June and again in August and September. The flowers are large, often measuring five to six inches in diameter; very fragrant and of all the colors known to the rose. If you wish to enjoy a glorious sight, set out a row of these roses in a trench filled with manure and strong soil (mixed together), and you will be repaid. Set these plants fifteen to eighteen inches apart. When planting, care should be taken to set plants deeply, planting them at least two inches above the first joints or branches and pounding the soil firmly around the roots. Cut shapely and keep well trimmed and the dead wood removed.

MADAM PLANTIER

This grand variety, when once planted, is as permanent as a Hydrangea. It is hard as an Oak, and for outdoor planting it is the best white Hybrid Perpetual. We recommend it for cemetery planting, because of its permanency. Flowers are pure white, very large and double; it is a profuse and continuous bloomer. Good white, hardy roses are scarce—this is one of the very best. Each 55c and 50c.

BEST HARDY GARDEN ROSES

American Beauty—This variety has been rightly described as an ever blooming Hybrid Perpetual. The flowers are very large and double: color, a deep rich rose. The fragrance is delightful. Each shoot produces a bud.

Anna de Diesbach—Bright rosy color; very large and showy; particularly fine in bud; flowers slightly cupped; a vigorous grower; one of the best.

Baron de Bonстetten—Dark red, almost black; very large, double, fragrant flowers.

Clio—the flowers are perfection in form. Color, delicate satin blush with a slight shading of rose-pink in the center. Very free blooming.

General Washington—This splendid rose is one of the best; color, bright shining crimson; flowers large and perfectly double; blooms almost constantly.

Fisher Holmes—Deep crimson, fine rose in every way. Perfect form.

Margaret Dickson—The flowers are of the purest white, of extra large size and of grand substance. Free flowering and strong grower.

Madam Charles Wood—A continuous bloomer of dwarf compact habit. Flowers are large and very double, of deep crimson shade.

Paul Neyron—Deep shining pink. Flowers often five inches in diameter. It is a good strong grower: almost thornless. Considered the finest pink rose.

Prince Camille de Rohan—Velvety crimson. Shaded scarlet.

Magna Charta—Deep pink, large, sweet scented and of fine form, one of the hardiest roses in cultivation.

General Jackqueminot—Rich velvety crimson: very fine.

PRICE—Extra strong two-year-old field grown plants, each 35c. dozen $3.00.

BEAUTIFUL CLIMBING ROSES

Crimson Rambler—One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson and remains so to the end. The flowers with which the plant is covered are produced in large trusses of pyramidal form and carrying thirty or forty flowers, which remain on the plant a long time. The foliage is bright green and glossy and contrasts finely with the bright crimson of the Rose. The plant seems to be as hardy as the old Prairie Queen. Every garden should contain this grand Rose. Price, strong one-year-old plants, each 25c, selected two-year-plants, each 50c.

The Philadelphia Crimson Rambler—it differs from the Crimson Rambler in two important particulars. First, the color is brighter, deeper and more intense. Second, the flowers are perfectly double to the center. It is a strong, healthy grower, free and abundant bloomer. Two-year-old plants, each 50c.

Dorothy Perkins, New Rambler Rose—As hardy as a Crimson Rambler and same habit of growth. The flowers are about one and one-half inches across; are borne in clusters of from ten to thirty, and are very double; the petals are very prettily rolled back and crinkled. The color is a most beautiful shell-pink and holds a long time without fading. Strong two-year-plants, each 50c.

Prairie Queen—A favorite with everyone. If you want a Rose for your porch, this is the one. Color, bright red, changing as the flower opens to a deep pink. Each 35c.
FARM AND GARDEN TOOLS
A COMPLETE DESCRIPTIVE "IRON AGE" CATALOGUE SENT FREE ON APPLICATION

The "Iron Age" GARDEN TOOLS are made "on honor" from the best of material and with the best workmanship. They cover all the requirements of cultivation and sowing. They do all that garden tools can do.

The No. 6 "Iron Age" Combined Double Wheel Hoe, Hill and Drill Seeder—This tool is without question the most practical and complete combined garden tool ever offered the public—the ease and simplicity of adjustment, the lightness combined with great strength, the accuracy by which it drills or hills the seed, and the small amount of power required to operate it, are the important features. The wheel is made of steel 16 inches high, the frame of pipe, coupled to malleable castings. In each form, whether a Seed Drill, a Double Wheel Hoe, or a Single Wheel Hoe, it is equal to any tool or tools made especially for the one purpose. It places the seed in drills or in hills at 4, 6, 8, 12 or 24 inches apart. Complete as in cut. Price $12.00.

No. 1 "Iron Age" Double and Single Wheel Hoe—Wheel Hoe form of the No. 6. One great advantage which this double Wheel Hoe possesses is that it can be made into a practical Single Wheel Hoe in a moments time. As a double Wheel it may be used astride the row and thus cultivate both sides of the row at the same time.

The wheels are 16 inches high, enabling the Wheel Hoe to run easily and without yielding to the inequalities of the soil as a low wheel will do. The frame being made of pipe coupled to malleable castings, gives great strength together with lightness. Price complete, $7.00. A Seed Drill attachment may be applied for sowing in rows only, or sowing both in rows and hills. $4.00 and $5.00 respectively. This tool with side hoes only (Iron Age No. 3) Price $4.25.

No. 20 "Iron Age" Single Wheel Hoe—The frame of this tool as in all Iron Age combined tools, is made of pipe coupled to malleable castings, thus rendering them light and strong. A pair of side hoes, a set of cultivator teeth, a pair of rakes and a land side plow are furnished with this tool. Price complete, $6.00; as with the No. 1 a Seeder attachment may be added at any time.

No. 21 Plain, (Hoes only)—Price $4.00.

Ask for Catalogue of "Iron Age" Tools, and price on Special Tools.
THE No. 6 "IRON AGE" HORSE HOE AND CULTIVATOR

PRICE AS IN CUT
$7.50

The Frame of this tool is high and long, therefore it runs steady and with excellent clearance of trash. The Horse Hoe standards carry the cultivator teeth as shown, instead of using an additional pair of cultivator standards.

The Horse Hoe Standards are of heavy solid steel and are attached to the bars by means of malleable iron ratchet castings, thus making a very firm connection and one capable of withstanding severe shocks without injury.

The Ratchet Castings are constructed so as to give easy and numerous adjustments to the side hoes, not only sideways but in angle of pitch. This adjustment also permits of the side hoes being entirely reversed for hoeing, or for covering purposes, with point forward, as shown in cut, they can be quickly changed from side to side. Although our No. 6 Horse Hoe, when used as a cultivator expands to a width of 30 inches, and closes sufficiently for ordinary purposes, the hoe steels, if necessary, can be brought into immediate contact with each other by placing the ratchet casting in a reverse position on the inside of the side bars. In this shape the tool is capable of doing excellent work, opening furrows for manure and other purposes. By the use of this Lever Expander the tool, as a cultivator, can be instantly changed while in motion from the extreme width of 30 inches to 14 inches as its narrowest. Or, the casting of the Hoe Standards can be placed on the inside of the frame and it can be used as a cultivator as narrow as 11 inches.

The Lever Wheel is also extremely simple, the lever handle being of steel, the castings malleable and is attached to the forward part of the Horse Hoe, the two bolts of the hingeplates passing through the malleable ratchet piece.

BROADCAST SEED SOWER
A PRACTICAL MACHINE FOR SOWING CORRECTLY ALL KINDS OF FARM SEEDS

NEW BRANDT SPRAYER

The latest of all devices for exterminating all kinds of injurious insects on plantations with only one-tenth the labor, cost and time of any other method known, with far better efficiency.

No waste of time by stopping to pump it ahead. Can be done as the operator goes along.

For distributing Paris Green, Bordeaux Mixture, Paris Green and Bordeaux Compound, Spanish Pink, etc.

Will spray one or two rows of potatoes at a time as fast as a man walks.

Will spray a row a mile long with only one filling of three gallons.

Will spray from fifteen to twenty-five hills of potatoes with each stroke of the pump.

Manifold uses for Farm, Orchard, Garden or Field. Invaluable in Potato and Tomato fields; Gooseberry, Currant and Rose bushes.

In Garden on Cabbage, Celery, Cucumbers, Squash, Cauliflower, etc. $5.00 and $6.50.

GLASS TANK SPRAYER

Is vastly different from any other sprayer of this class on the market. It is said by all who know its construction and advantages to be the simplest, most durable, and best hand sprayer ever made. Each 75c.

THE STANDARD SPRAY PUMP

As used with Bucket, Knapsack, Tank or Barrel for Spraying Orchards, Gardens, Vineyards, Whitewashing, Disinfecting Chicken House, Killing Vermine on Stock.

The Best and Most Powerful piece of Low-Priced Spraying Apparatus on the Market Today.

MADE ENTIRELY OF BRASS

With two Solid Brass Ball Valves

No leather suckers or washers

No castings to rust

No leaking joints

Nothing to get out of order

Warranted to Purchaser for 5 Yrs.

Price $4.50

THE NEW WAY, showing the Standard Pump furnished with three and one-half feet of hose and strainer when used with bucket. A few trees can be sprayed in this manner and efficiently. No need to poise on a ladder and make an all-day job of it when the work can be done quickly, easily and thoroughly standing on the ground.
INSECTICIDES AND FUNGICIDES

Have you ever thought of the loss of profit and labor occasioned by the ravages of insects? Use reliable and tested Insecticides and save this annoyance.

BORDEAUX MIXTURE—Liquid or Paste
The best fungicide for curing and preventing black rot, mildew, blight, leaf curl, scab or other fungid diseases on fruits and plants. One gallon will make 50 gallons liquid.
1 qt. 40c, gal. $1.00.

ARSENATE OF LEAD—Popular remedy for use against all eating insects that attack foliage and fruit trees. Will not wash off nor in any way burn the foliage. Use two or three pounds to 50 gallons of water.
1 lb. 25c, 5 lbs. $1.00.

SULPHO TOBACCO SOAP—Excellent for freeing ferns and palms from insects, and used as a wash. Cakes 10c and 20c.

SURE SHOT—A fine powder good for all purposes. Used alike on both plants and animals and especially good to use on chickens and setting hens. 10c and 25c per box.

Hammron's Copper Solution—A concentrated fungicide prepared remedy for use on trees, vines and vegetables affected with blight, rot or scab, with safety to foliage. Per quart 50c.

Stewart's Liquid Sure Shot—For Aphis on Sweet Peas and Roses. Per bottle 15c.

Paris Green—A poisonous insecticide in powdered form, for insects which chew. When applied as a powder use one part Paris Green to 100 parts plaster or flour. As a liquid one pound Paris Green in 150 to 300 gallons water. If used on fruit trees add one pound quicklime. Quarter lb. 10c, half lb. 15c, lb. 25c, 5 lbs. $1.00. Prices subject to market changes.

Slug Shot, Hammond's—Guaranteed to destroy potato bugs and those on tomatoes and egg plants, currant worms, cabbage lice and worms. 1 lb. carton 15c, 5 lbs. 30c, 25 to 50 lbs. at 43½c per lb.

SULPHATE OF IRON—A remedy for weeds on lawn, for which it is claimed that it will kill dandelions without injuring the grass. To be successful, liquid should be applied with a fine spray.
5 lbs. 25c, 10 lbs. 40c, 25 lbs. 75c, 50 lbs. $1.25, 100 lbs. $2.25.

Ant Exterminator—A non poisonous powder which if scattered about their haunts or runs, will kill or drive away ants from lawns, etc. Box 25c, by mail 35c.

Lawn grass is a very voracious feeder and will not thrive and hold its beautiful dark green color and velvety appearance unless it receives a sufficient supply of suitable food. Because so few appreciate this fact is the reason there are so many poor, rusty-looking lawns. Stable manure is unpleasant to handle, ill looking and decidedly odorous, and it is also full of waste material. It contains weed seeds which are obnoxious and it often takes years to eradicate the weeds, causing an unnecessary amount of labor. All these objections are obviated by the use of our Lawn Fertilizer.
POULTRY AND PIGEON SUPPLIES

We handle a complete line of Poultry Supplies of the best quality. Prices are subject to important market changes. We shall be glad to name special figures on large lots.

LEE'S

EGG MAKER, 2½ lb. box 25c, 5½ lb. box 50c.
GERMOZONE, (liquid) per bottle 50c.
GERMOZONE, (tablets) per box 50c.
WHITE DIARRHOEA REMEDY, 50c.
INSECT POWDER, 25c.
LIQUID LICE KILLER, qt. 35c, ½ gal. 60c, gal. $1.00.
LEG BAND, made of soft, pliable aluminum band, which is far superior to any other material. Numbered with plain figures. Price 15c per dozen; 85c per 100, postpaid.

RUST'S

ROUP PILLS, per box of 48, 25c; 250 $1.00.
SOLUBLE Roup POWDER, 25c and 50c per box.
EGG PRODUCER, 1 lb. box 25c; 2½ lb. box 50c.
CLIMAX CONDITION POWDERS, 13 oz. box 25c; 32 oz. box 50c.
POULTRY MARKER. This is a convenient little spring punch for marking chickens, by making a small hole in the web of the foot. Each 25c postpaid.

CONKEY'S

ROUP CURE, per box 50c.
LAYING TONIC, 25c and 50c per box.
NOX-I-CIDE, 35c and 60c.
WHITE DIARRHOEA REMEDY, per pkg. 50c.

GLASS NEST EGGS, each 5c; per dozen 35c; four dozen $1.00.
MEDICATED NEST EGGS, Each 5c: doz. 50c.
MICA CRYSTAL GRIT, 10 lbs. 15c; 25 lbs. 35c; 100 lbs. $1.00.
CRUSHED OYSTER SHELL, 10 lbs. 15c; 25 lbs. 35c: 100 lbs. $1.00.
CRUSHED BONE, 10 lbs. 40c; 100 lbs. $3.00.
BONE MEAL, FINE, 10 lbs. 50c; 100 lbs. $2.50.
CHARCOAL, GRANULATED, 100 lbs. $3.00.
BEEF SCRAPS, per lb. 4c; 100 lbs. $3.50.
MEAT MEAL, per lb. 4c; 100 lbs. $3.50.
ALFALFA MEAL, 100 lbs. $3.00.
HEMP, SUNFLOWER AND KAFFIR CORN sold at prevailing market prices.

CHAMBERLAIN'S PERFECT HEN FEED, per lb. 3c, 100 lbs. $2.50.
CHAMBERLAIN'S PERFECT CHICK FEED, per lb. 3c; 100 lbs. $2.75.
CHAMBERLAIN'S PERFECT PIGEON FEED, per lb. 3c; 100 lbs. $2.75.
THE "TRIUMPH" CAPONIZING SET

There is no doubt in the minds of up-to-date poultrymen as to the advantages of caponizing. Caponizing does away with the troublesome cockerel, and transforms him into a tranquil, majestic fowl moving at leisure about the yard and only growing fatter and heavier every day. The operation is very simple, and with a "Triumph" Caponizing Set any boy of 12 years of age can perform it with safety and thoroughness.

PRICES

Set in plush-lined, cloth-covered .................................................. $3.00
Set in polished hard wood box ..................................................... 2.75
Set in Japanned wood box ............................................................. 2.50

"OUT O' SIGHT" Mole Trap

This cut shows the best Mole Trap ever offered, and only has to be tried to be appreciated.

THE SECRET OF MOLE CATCHING

is a GOOD TRAP, and to know their habits.

Full information sent with each trap.

$1.00

NEW PRINCIPLE

THE BEST TRAP MADE FOR POCKET GOPHERS

When properly set will catch 19 out of 20. No danger and easy to set; sure catch. Full directions with each trap. Price 25c.

Corn Planter, "The Eagle"—This is a rotary Planter, having three different sized plates, which can be put in or taken out as needed in the easiest possible manner. One of the most popular. Each $1.50.

Fork—Digging or spading: angular tines. Each 65c.

Trowels, Steel—One solid piece of steel and will outwear all others; each 50c; post-paid, each 60c.

Eureka Weeder—The best little hand Weeder for loosening soil around plants that we know of. 25c.

Steel Bow Garden Rakes—Does not break in the center; 12 teeth, 40c; 14 teeth, 50c; 16 teeth. 60c.

Dandelion Puller—This is the best Dandelion Puller in the market. It is made of best steel: after an English pattern. 25c.

Hand Weeder—It is, in our opinion, the best Weeder made. Price 25c; $2.50 per dozen.

Steel Garden Hoes—Each 25c, 35c, 50c, 60c and 75c.
Garden Trowels—Each 10c and 15c.
Wood Handle Iron Dibbles—
All Iron Dibbles—
Wood Handle, Brass Point Dibbles—

Lawn Rakes—Each 50c, 60c and 75c.
Garden Spades—All steel, each 75c.
Children's Garden Sets of 3 pieces at 10c and 25c each.
Ladies' Garden Sets—All steel. 3 pieces. $1.00 a set.
The Mandy Lee Incubators and Brooders

1. **Insurable**—Endorsed by Board of Fire Underwriters.

2. **Heat Adjustment from End to End**, insuring the same temperature at both ends of the large incubators at all times.

3. **Heat Adjustment from Center to Front and Back**—This enables the operator to keep temperature in the middle the same as at front or back.

4. **New Automatic Regulator**—Moisture measurement and automatic regulation of moisture are exclusive features of the Mandy Lee for 1912.

5. **Automatic Regulation of Ventilation**—This gives more ventilation when heat runs high, and cuts off ventilation when heat runs low.

6. **Mandy Lee Hygrometer**—The Mandy Lee Hygrometer is the first successful instrument for measuring moisture in incubators and the only direct reading instrument, even now, as we have each detail protected by patents.

7. **New Moisture Pan**—A new improvement for 1912 is the new moisture pan, which pulls out of the end of the incubator at top of heating chamber, and can be removed, cleaned or re-filled without opening incubator.

8. **Heat Advantages**—Special burner with high wick-tube and wide flame-slot; lamp bowl all in one piece; self-seating chimney of our own invention; drip pan under lamp to collect any possible leakage; special vent for any gas forming in the lamp; perforated sheet-metal cylinder in top that will automatically put out lamp in case of accident; circular shield to protect body of the incubator; and sheet-metal and asbestos protection to every part exposed to heat.

9. **The Drop Bottom**—The bottom of the Mandy Lee incubator is hinged at the back, and by turning a button the front may be lowered five or six inches, permitting the removal of the chicks without chilling the eggs. Decidedly superior to the drawer systems of other machines.

**A LOOK INSIDE**

This illustration shows a sectional view of the brooder, with the end cut away to show the interior arrangement. The long, narrow hover, while indispensable as a correct brooder principle, would have been of little value without a heater capable of heating evenly from end to end. **Our most important patent is the one covering the heater.** The hover is heated evenly from end to end so that the chicks do not pile up at any particular point, but are always found evenly distributed along the entire length of the hover.

The lamp fumes and super-heated air are carried entirely through the hover and out at the other end. Another pipe outside of this one carries warm, fresh air into the upper part of the hover. This filters down through the blanket to the chicks, keeping the blanket and both upper and lower compartments dry, sweet and pure. Still another and larger pipe gives rapid circulation of air in the upper part of the hover and a consequently **even heat from end to end.**

The Gladiolus is the most attractive of all the summer flowering bulbs, and deserves a place in every garden, as it is sure to flower and do well with very little care.

**PRINCEPS**

Its wonderful size of flower, perfect shape, brilliant coloring and artistic form of flower spike are each so notably an improvement over all other varieties that all combined place it in the front rank. The flowers are from 5 to 6 inches broad, the petals are very wide and rounded, well reflexed, forming an almost circular flower. The color is brilliant scarlet-crimson, carrying mostly three broad white blotches on the lower petals. Spikes 4 ft. in height produce 12 to 15 flowers, opening in succession. Each 15c, two for 25c, $1.50 per doz.
